Bieber Fever

FALL FEMALE AND BULL SALE

THURSDAY, NOVEMBER 10, 2022 1 PM AT THE RANCH NEAR LEOLA, SD

BIEBER RED ANGUS CONTACTS

Bieber Red Angus Office	
Craig Bieber, Owner & CEO	
Peggy Bieber, Owner & Office Manager	
Craig Howard, Cowboss	
Jake Harms, Sales & Herdsman	(605) 929-6686
Kristin Harms, Marketing	(605) 380-4408

AUCTIONEER

Seth Weishaar.....(605) 210-1124

OUTSIDE SALES AGENTS

Clint Berry	(417) 844-1009
Tom Hardesty	(520) 909-0233

PUBLICATION REPRESENTATIVES

Scott Dirk, Tri-State Livestock News	
Kirby Goettsch, Farm & Ranch Guide	(605) 380-3939
Donnie Leddy, Cattle Business Weekly	(605) 695-0113
Jeff Kapperman, Tri-State Neighbor	(605) 940-5104

RED ANGUS BREED ASSOCIATION

Tom Brink, CEO	
Harold Bertz	
Rachael Oliver	(406) 480-1569
*Rachael Oliver	will be present on sale day.

TOP DOLLAR ANGUS

Nathan Smith	(620) 546-4839
Kaytlin Hokanson	(307) 461-7687

NEOGEN

Kenny Stauffer	(402) 560-6345
Sarah Olson	(402) 314-4589

SALE ORDER

Sale order will be commercial heifers first, then proceed in catalog order. Any variations from this order will be announced prior to the sale.

EPD INFORMATION

In this catalog we have included data on the core performance traits. With the ever-expanding database predictions on more traits than ever before, we have had to narrow our EPD selection to these core items. If you would like additional information on any traits not listed, please let us know. The EPDs provided are current as of the date listed under *EPD DATA GENERATED*. Real time data can be found on www.RedAngus.org.

SCHEDULE OF EVENTS

WEDNESDAY, NOVEMBER 9

8:00 am	Sale cattle available for viewing all day
9:00 am	Coffee and supplement sheets available in sale barn

THURSDAY, NOVEMBER 10

8:00 am	Sale cattle available for viewing
9:00 am	Coffee and supplement sheets available in sale barn
11:00 am	Lunch will be served in sale barn
1:00 pm	Sale time
5:00 pm	Dinner served following the sale

SALE LOCATION

Bieber Red Angus Ranch, 11450 353rd Ave, Leola, SD 57456

The ranch is located nine miles west of Leola on Highway 10. When you see the Bieber Red Angus Ranch sign, turn north and go 1/2 mile.

DELIVERY POLICY

Please review our delivery policy on Page 4 for info on delivery costs and central delivery points.

SUPPLEMENT SHEETS

Supplement sheets will be available on sale day and will include actual scrotal measurements and actual weights.

INSURANCE

Mortality and Accident, Sickness and Disease Infertility Insurance will be available sale day by Katie Williams of Martin-Trudeau Insurance. Contact Katie at (605) 770-9986 with questions.

ONLINE BIDDING

The sale will be broadcast live over the internet through DVAuction. To bid from your computer during the sale, complete this simple two step process:

- Visit www.dvauction.com or call (402) 474-5557. Register by entering a User Name and Password. Enter your personal information on the next screen.
- Click "Apply for Bidding." Select the Bieber Red Angus Sale from the list of sales and click "Apply." Complete the process by filling out the Banking and Lending information requested.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale. We will assign you a buyer number after you have made a purchase on the sale through DVAuction. After the sale, Bieber Red Angus will contact you to make arrangements for payment and delivery of your purchases.

Please Note: You must have high speed internet access (DSL, T-1, or Broadband) to bid during the sale. Any questions, please contact DVAuction at (402) 474-5557 or support@dvauction.com. We recommend that you register at least one day before the sale for online bidding.

C/1 Jelcome OUR 2022 FALL FEMALE AND BULL SALE!

We want to thank each of you for taking the time to learn about our operation and take a deeper look at the cattle we have to offer at this sale. We work hard to provide our customers with cutting edge genetics that excel in all segments of the beef industry. To us that means breeding for growth, fertility, calving ease, maternal, and carcass traits. These traits should come in a functional package, with good feet, udders, and disposition, without giving up style and eye appeal. We truly believe through focused selection, you can have it all.

Our program has been influential in the Red Angus breed, and the cattle industry as a whole, for over 50 years. Through those years, we have seen many different seedstock breeders come and go - some much quicker than others. We use our experience and knowledge of development to produce seedstock cattle that will offer longevity and productivity. That means you get a product that is far above the average of the industry.

Our crew is passionate about making cattle better. To do that, we have learned a lot about the basics of the cattle business. We find ourselves constantly monitoring the information in the industry to make sure we have knowledge that will benefit you when you need advice. When new technology becomes available, we analyze it to make robust decisions on how to use it to be more profitable

Our program has a focus on profit that is second to none. The proof is in the pudding: four of the top ten most used Red Angus bulls were produced by our program, and two additional Bieber herdsires fall right outside the top ten. We focus on profit and quality in every part of our program and daily work to give you the consistency you want in your cowherd. We have always felt good seedstock in volume pushes prices to a level every cattle producer can afford. After reading this, I personally hope you take the time to do one of the following things:

- Come to our ranch and look at this offering.
- Get on our website and take a look at our lot videos.
- Call me or anyone under SALE CONTACTS for a personalized bull or female list that fits your operation.

We know our future and success depends on customer satisfaction. Repeat customers, long-standing relationships and real genetic value are what we aim to produce. We continue to promise that if you have a problem, we will do our best to make sure you are satisfied.

On sale day, we look forward to seeing our customers that have become friends and meeting new customers that we hope to have a long-standing relationship with. We are excited to see you at the Bieber Fever Fall Female and Bull Sale.

Our Family Back L to R: Eric and Megan Payne, Craig and Peggy Bieber, Kristin, Jake, and Holton Harms Front L to R: Londyn Harms, Kylie Payne, Hartley Harms, Presley Payne

CRAIG J BIEBER

MEET THE TEAM

CRAIG AND PEGGY BIEBER

Craig and Peggy are the owners and operators of Bieber Red Angus. As CEO, Craig oversees the operation of the ranch and coordinates the selling of more than 550 Red Angus bulls each year. Peggy is his partner and the full-time office manager at the ranch. She manages all bookkeeping, cattle record entry, and sale clerking. Together, they work diligently to market exceptional cattle to seedstock and commercial cattlemen alike.

JAKE AND KRISTIN HARMS

Jake and Kristin are Craig and Peggy's son-in-law and daughter and the next generation on the operation. Jake oversees the feeding plan for the Bieber herd and handles cattle sales with Craig, along with his herdsman duties. Kristin handles the marketing and works in the office with Peggy. Both are committed to the future of the operation.

CRAIG HOWARD

Craig is the cow boss at Bieber Red Angus. He manages the daily operations of the ranch including breeding, calving, overall cattle care, and maintenance. He has been with the ranch for more than 16 years and is committed to the program he has helped build over his tenure.

JACKSON SIMONDS

Jackson is a herdsman and feeding specialist. He focuses on feeding and the maintenance of all of our farm and ranch equipment, among his other ranch duties. He has developed into a strong cattleman and is a great addition to our team.

JOSH SMITH

Josh is a herdsman and our newest team member. He comes to us from California with an extensive cattle background, particularly in the calving barn. We are excited to see him join our team and look forward to having his experience on the operation.

Lois is a co-founder of Bieber Red Angus. She and Ron, who passed away in August 2020, established the Red Angus herd in 1968 with proven cows from leading breeders. Lois resides in Aberdeen but continues to help with the sale and visits often in her free time!

LOIS BIEBER

We have outlined our delivery arrangements and pricing below and we encourage each of you to review the details. Please stop by our check out counter prior to leaving the sale to coordinate delivery plans on your animals. If you are not onsite on sale day, Craig will be in touch with you within a week of the sale to coordinate the delivery of your purchases. We appreciate your patience and assistance when organizing delivery.

DELIVERY PRICING

As always, we will continue to offer free delivery to **CENTRAL POINTS** in South Dakota and North Dakota. For all other states, delivery will be charged to **CENTRAL POINTS** per head based on the pricing outlined on the map below. Pricing will be charged based on your physical address. Delivery charges will be added to each invoice at check out, unless you plan to load out within 7 days of the sale.

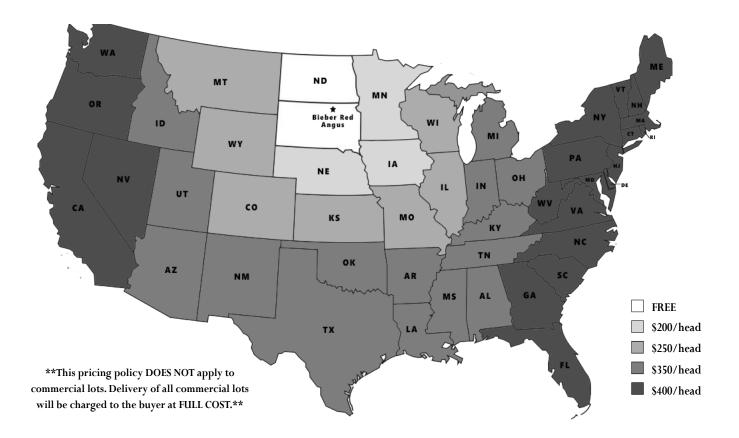

CENTRAL POINTS

All deliveries will be organized to **CENTRAL POINTS** within the state. Delivery will NOT be organized to your home or ranch. Loads are delivered by semi truck and require drop off points along their route with a loading chute and location to house livestock. You are expected to meet the semi truck driver at the central drop-off point as communicated by them. Central points for delivery include auction barns, vet clinics, and other locations determined by the semi truck driver at the time of delivery. Pricing to these central points will be charged to you based on your physical address. The driver will be given your contact information and will communicate with you regarding the drop off time and location.

FEEDING ARRANGEMENTS

If you are not ready to receive your animals when we plan to deliver to your area, feeding arrangements are available for a charge of \$3.50 per day per animal. Please coordinate these feeding arrangements after the sale.

We ask for your cooperation in arranging dates and the pick up of your cattle at central delivery points within your state. This will keep the cattle from being on the semi truck longer than necessary and help to get your animals to you with the least possible stress and in the best possible condition. We appreciate your understanding of our delivery policy and look forward to working with you on the delivery of your cattle. Please let us know if you have any questions!

SALE TERMS

HEALTH

Ashley Vet Clinic will be available on sale day. All cattle are on a complete vaccination program supervised by Ashley Vet Clinic.

In the past bulls have been tested for persistent BVD carriers and all tests were negative for a number of years. We have chosen not to test the bulls this year since no positives have been found in over 10 years. We have tested our replacement heifers for BVD since 2014 as part of our surveillance program and found no positive BVD carriers. Bieber Red Angus participates in the Beef Quality Assurance (BQA) program. Heifer calves have been Bangs vaccinated. We participated in a Johnes testing program for 10 years with no confirmed positives. We no longer test for Johnes disease but continue to diligently watch for any suspicious cases and test as necessary.

BREEDING SOUNDNESS EVALUATION

Breeding soundness screenings will be performed in November before the sale. We fully guarantee that these bulls will pass the breeding soundness evaluation before the breeding season in 2023 if the bulls are managed properly. Part of being maintained properly means being on a plan of nutrition where bulls maintain or gain weight. The bulls will be weighed the week prior to the sale when the breeding soundness evaluation is done. We recommend that all bulls be tested 4 to 6 weeks prior to your breeding season. Our guarantee will require that the bull weigh the same or more than when we did the breeding soundness evaluation in November 2022. We ask for your understanding if a bull does not pass. Sometimes bulls that have passed do not pass later for various reasons. We will do our best to make sure you are satisfied. Keep in mind that the development of any bull is inhibited by inadequate nutrition. If you have any questions regarding breeding soundness evaluation, feel free to call Craig or Dr. Dean Christensen at the Ashley Vet Clinic.

RETAINED INTEREST

We are retaining 1/2 interest in all bulls in the sale. We are selling the remaining 1/2 interest, full possession, and full salvage value. This option gives Bieber Red Angus Ranch the option to collect, use and market semen from the bull and does not restrict the purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Bieber Red Angus Ranch, at the buyer's convenience. Also at the time of purchase, the highest bidder on a retained interest bull may elect to purchase exclusive semen rights for 100% of the purchase price in addition to the purchased price on retained bulls. If a buyer elects to purchase exclusive semen rights, Bieber Red Angus Ranch's interest then becomes in herd use only, but Bieber Red Angus Ranch retains all rights to use the bull within their herd.

BIRTH WEIGHTS/CALVING EASE

We score for calving ease with our three star (*) scoring system. Three stars (***) indicates that a particular bull can be used on heifers under standard conditions with little or no calving difficulty. Two stars (**) indicates that a particular bull should be used on growthy heifers or cows under standard conditions with little or no difficulty. One star (*) indicates that a particular bull should be used on cows under standard conditions with little or no difficulty. This recommendation is a system we use to help our customers with calving ease selections.

Birth weights are highly affected by environmental factors. Research has indicated that the inclusion of corn in cow diets will increase BW. Also contributing to higher BW were cold temperatures. The University of Nebraska conducted a three-year study to research and evaluate effects of high and low temperatures during winter months on calves out of 384 two-year-old heifers. Average BW increased by 11 lbs. when temperatures were colder. The results agree with other studies comparing calves born in the southern US to calves born in the northern US. Weather plays an important role in BW and calving difficulty. We have adjusted the calving ease scores accordingly, taking into consideration what the calf ratioed on BW, pedigree, CE EPD, BW EPD and Genomic data.

COLOR

All animals are red unless otherwise indicated in the footnotes.

WEIGHTS

Birth weights, weaning weights, yearling weights, and all other measurements are taken at appropriate times to produce sound and accurate comparisons within contemporary groups. We group our Red Angus calves based on the age of our cows. Calves out of two-year-old dams, three-year-old dams, and the main cowherd are all separate management groups and therefore are separate contemporary groups. Embryo transplant calves are contemporaried in the groups they are weaned with.

WEANING WEIGHTS

All naturally born calves at Bieber Red Angus Ranch are raised without creep. We feel that this helps us select and breed for dams that have milking ability and sound udders. ET calves are on creep feed to express their full genetic potential.

INTERNET AND ABSENTEE BIDDING

We would prefer for you to be in attendance on sale day. Realistically, we know that there will be scheduling conflicts and distance limitations. In these instances, we can arrange an individual to handle your bid over the phone so you can participate in the sale. Please call the office prior to the sale and register as a prospective buyer. We need to warn you of complications we have experienced with phone bidding including the volume of the phone and the rapid pace at which our sale moves. For internet bidding information, see the DVAuction section.

If you are unable to attend and you feel comfortable doing so, you also have the option to leave your bids with the Bieber crew, Auctioneer, or publication representatives. We handle many sight unseen bids and have very satisfied customers who feel confident in using this service. We prefer to have plenty of time to discuss your needs over the phone prior to sale day so that we may select the cattle that best fit your specifications. We buy those animals just like you were sitting ringside with us. We also guarantee the cattle and if they don't meet your expectations, you can return them. If possible, please evaluate the offering onsite prior to sale day. We will also post video of each lot on our website.

BREEDING DATA

Breeding data on the bred females, including sex of pregnancy and date of calving, is verified by ultrasound and is an estimate. Many years of ultrasound data has proven it is 99% accurate. This data is verified to the best of the veterinarian's ability depending on embryo age. Some bred females have two sires too close to call by ultrasound and we have indicated that DNA will be necessary to determine the sire in the footnotes

FEEDING

Feeding arrangements are available on all lots and will be fed at a charge of \$3.50 per day. We will feed your purchases from sale day until you are ready to pick them up, or we will deliver them.

GENETIC DEFECTS

Every animal in the Bieber Red Angus production sale is guaranteed negative for the recessive gene associated with Osteopetrosis(OS), Arthrogryposis Multiplex(AM) (Curly Calf Syndrome), Neuropathic Hydrocephalus (NH) and any other known genetic defects. With this guarantee, we provide our customers the opportunity to purchase their choice of cattle with very little risk. DNA samples have been collected on every animal in the sale with any known carrier in the first three generations and tested negative unless otherwise noted.

GAIN TESTING

The summer born bulls were weaned in October of 2021 and yearling weights were taken in May of 2022. All summer born bulls were placed on feed in preperation for the sale.

BIEBER IGENITY

We want to take this opportunity to introduce you to Bieber Igenity, a DNA evaluation from Neogen that will rank your herd on the same basis as data provided by Igenity on Bieber Red Angus bulls. This evaluation will allow you to have your animals tested and ranked against a large data base, and then in turn directly select bulls that can complement your herd. This approach offers a science-based method to directly compare and contrast DNA markers within the bovine population.

We aim to produce bulls that provide the greatest return per dollar invested by staying focused on profit-oriented genetics that reduce management and labor inputs and increase sustainability. This program contributes to that goal by making our bulls and your cowherd speak the same DNA language. Our bulls have been tested on this same platform, giving you the opportunity to make better choices on what bulls will drive your operation in the right direction. We are excited to partner with Neogen on Bieber Igenity, the industry's first commercial cattle, multi-breed genomic selection process that is globally accepted.

Sample collectors and tests can be purchased from Bieber Red Angus at the following prices.

- Blood card: \$1.00
- Tissue Sample Unit (TSU): \$2.50
- •TSU EID Kit (840 tag): \$5.00
- DNA tests: \$29.00 per test

For an additional \$4.00, BVD PI testing can be done on TSU samples only. Sire parentage can be determined if Neogen has the sire on file. There is a 4 to 5 week turnaround for testing results. With this program, you will receive a \$10.00 credit per test towards a bull purchase at Bieber Red Angus.

HOW TO IMPLEMENT BIEBER IGENITY

Step 1: Choose 30-50 females in your herd to test in the program. This number allows you to identify the genetic trends in your herd.

Step 2: Order blood cards or a TSU. This can be done directly through Bieber Red Angus or Neogen. Tests will cost \$29.00 per test when ordered through Bieber Red Angus, with a \$10.00 credit per test towards a bull purchase at Bieber Red Angus. Credit must be used within two years of submitting your Bieber Igenity order. Credit is valid for bulls ONLY and can equal only 20% of your total bull purchase.

For example Spend: \$5,000 Use: \$1,000 Credit Spend \$10,000 Use: \$2,000 Credit

Step 3: Collect DNA samples

Step 4: Fill out order form from Bieber Red Angus.

Step 5: Send completed order form, check made out to Bieber Red Angus, and your samples to:

Bieber Red Angus ATTN: Sample Submission 11450 353rd Ave Leola, SD 57456

After these steps are completed, we will send your samples to Neogen for testing with a turnaround time of 4 to 5 weeks.

DONOR COWS

Every year in our fall sale we offer a small set of cows from our donor program. At our operation, every cow is sold when she turns seven years old, as long as she is bred. You will notice that Lot 2 Bieber Enchantress 359B is being offered as an eight-year-old, but she was still being flushed at this time last year and was consequently not ready to be offered. These donor cows are the pinnacle of our program and deserve your attention if you are looking for elite genetics to step up your herd.

LOT 1 BIEBER CL ADELLE 475C

Unsexed calf due 2/8/2023 sired by KJL/CLZB COMPLETE 7000E. Adelle 475C has been one of the best cows we've seen at Bieber Red Angus. Her first son, Stockmarket E119, is the second most used sire in the breed and set a record at Select Sires by landing in the top 10 for beef bulls two years running. That is the first time a non-Black Angus bull has ever done that. Lot 1 has put sons in the herds of some of our most discerning customers, including Welsh Farms of IL, Rick and Shelly Ammann of SD, and Sheldon and Kim Droog of SD. They saw early on what Stockmarket was doing for the breed and quickly tied into this pedigree. She has one daughter in the herd, several in the bred heifer group, and a large number of embryos that Craig and Lindley have in the tank. She is very impressive phenotypically just look at those photos! She does have strong protective maternal instincts and requires quiet handling when working with her. This cow is likely the best to be offered in the Red Angus breed and if you are looking to up your genetic game, this is one to think about.

LOT 2 BIEBER ENCHANTRESS 359B

Bull calf due 3/13/2023 sired by KJL/CLZB KIRKLAND 8003F. This Rollin Deep daughter epitomizes the stout, high-capacity body type that he is known for. She comes out of a very productive Basin Hobo 0545 daughter that came to us from the Basin Program. Enchantress 359B has a son that we used in the herd and we just weaned his first set of calves. Bieber High Density H558 might be one of the best Hard Drive sons we have ever produced. His calves look good, and we are excited to get them on test. All indications are that they will be sought after next spring. This lot was a prolific donor for us and we are excited about her potential to move another program forward.

LOT 3

Unsexed calf due 5/31/2023 sired by either BIEBER JUMPSTART J137, PIE COMPLETE 1207, LSF SRR BLANK CHECK 0162H, or TJS GATE KEEPER F106. DNA testing will be necessary to determine sire. The Maid Marion cowline has always been a productive one and 325F is no exception. One of her first sons was purchased by Bryan and Emmy Huber and is doing great things in their program. We have several daughters active in the herd. The Atomic daughters very rarely disappoint and this is one of the best. She has twelve ET calves to her credit. With prepotency like that, one or more of her daughters will be even better than she is. We will ultrasound her prior to sale day and provide calf sex.

LOT 4

Bull calf due 2/23/2023 sired by BIEBER CL STOCKMARKET E119. Bieber Natie 126C is not a cow we have flushed but we wish we would have! She has great phenotype and excellent data to go along with it. Her most recent son was a bull that sold to the prominent program at Pieper Red Angus. You can mate her a lot of different ways with the data she offers and end up with some very desirable progeny.

We started offering bred heifers several years ago and people always wonder how we select which ones to sell. The first reason we offer them is for regular cash flow and breeding heifers is something we are good at. We also have pastures that are better for yearlings over pairs. We generally offer any bull bred heifers to help us shorten our calving window and we also offer some AI bred heifers for those who calve earlier. This year we are also offering Dillon Spurr's heifers. Dillon worked for us but decided to move on to another opportunity, and the females he owns will be offered on this sale.

LOT 5 BIEBER ENCHANTRESS 135J

Bull calf due 3/3/2023 sired by TJS GATE KEEPER F106. The Enchantress cowline is always an impressive one – and you can see that in both this bred heifer and our Lot 2 donor cow. Lot 5 posts very impressive GridMaster and marbling data. Her sire, Forefront B281, has been an outstanding female producer. We only have 30 units of semen left on him in the tank, so we are making sure to use it on the best donors to make some extraordinary females like this one. She is dark red in color and will most definitely catch a lot of eyes on sale day.

LOT 6 BIEBER ROSE 122J

Heifer calf due 3/5/2023 sired by LSF SRR BLANK CHECK 0162H. When you go through the Stockmarket daughters, you find a lot of length and this heifer demonstrates that. Her dam was misnamed due to a parentage mix up, but she comes from the Rose cowline which is notable for producing Let's Roll B563 and many others. Lot 6's growth data is pretty typical of the cowline. She has a bit of ineligible white, but that does not exclude her progeny that don't have any disqualifying characteristics from being 1A status. She is definitely a female to watch with a very high 6.48 IMF score and should lead any program when it comes to marbling.

Bull calf due 3/5/2023 sired by TJS GATE KEEPER F106. Here is a Stockman E116 daughter that has data that will make you pause and take a look. Due with an early March calf and stacking Forefront in her pedigree, you have a pretty good chance to be stacked for success. Her dam is the dam of an upand-coming sire, Flashdrive G266, who everyone will be hearing a lot about in the coming years.

Heifer calf due 2/28/2023 sired by TJS GATE KEEPER F106. This is one of the first Maximus daughters to sell and like we said in the reference sire footnotes, we are excited about them coming into production. When Seth Leachman saw the Maximus daughters this spring he immediately ordered semen. In addition, Pieper's bought natural service on the sire. That would indicate to us that several great Red Angus breeders see the future worth of his progeny.

SUPPLEMENT SHEETS WILL BE AVAILABLE ON OUR WEBSITE. WE WILL ALSO HAVE HARD COPIES ON SALE DAY. GRAB A COPY FROM THE CLERKING AREA PRIOR TO THE SALE START AT 1 PM CST ON THURSDAY, NOVEMBER 10.

Heifer calf due 3/2/2023 sired by TJS GATE KEEPER F106. When we bought the Durheim herd we knew they would be great cows but we probably underestimated their genetic worth. These females were made for a profit minded program with great growth and outstanding carcass. This one gives nothing up to any 1A being in the top 1% for growth and top 3% for GridMaster. It is hard to explain how good they are but this SMxAR bred heifer was out of one of the best cows in the acquisition.

Heifer calf due 3/6/2023 sired by TJS GATE KEEPER F106. This lot comes from the heart of our ET program. Her dam is a ¾ sister to Hard DriveY120 making her pedigree prepotent. Stacked with Stockmarket, she puts together some very great cowlines. Lines that can produce under strict range conditions and still look the part are often considered the great ones. We believe that our competitive range environment sets them up to be successful anywhere.

Bull calf due 3/7/2023 sired by TJS GATE KEEPER F106.

Every year we offer bred cows out of our program. First, every cow in our herd sells when she turns seven years old. Why seven? After doing the math, we believe these females breakeven with a lot of life and fertility left in them, but they've served their purpose in our herd at that age. Second, we offer younger cows that are due later in our calving season in order to keep a tight calving window. These cows are from the heart of our program and deserve your attention if you are looking to step up the genetics in your herd. They often fit another operation's calving season quite well. Finally, we breed a large number of replacement heifers each year because we feel they offer the best genetics we've produced to date and want to utilize that. Inevitably, that means a certain number of cows have to go in order to maintain a reasonable cash flow and stocking rate.

Bull calf due 3/1/2023 sired by BIEBER CL ENERGIZE F121. Lot 54 is a time-tested matron that has done it year after year. This cow is one that probably should be up in the donor section, because not many others will even come close to her data. She offers a different pedigree and has a MPPA of 110. She also sold a son to Josh Raile that is working in the Raile Red Angus program.

Unsexed calf due 5/30/2023 sired by either BIEBER JUMPSTART J137, PIE COMPLETE 1207, LSF SRR BLANK CHECK 0162H, or TJS GATE KEEPER F106. DNA testing will be necessary to determine sire.

In my original quest to get out of farming I convinced my father Ron that if we calved a group of cows in May-June, we could offer age-advantaged bulls for those customers that wanted them. One of the major reasons we did this was because every year or two we would have a natural service sire that didn't do his job resulting in open or late cows. We didn't want to get rid of these cows but calving in April was tough because of the mud. We decided to breed them to start in May and have been calving cows at this time since 2002. This season syncs with our grazing cycle and augments our current Spring calving system. We have also found that producers in many areas of the country like these age-advantaged bulls for their operations. Because of that, we have added ET calves to the group to increase the volume and quality.

LOT 125 BIEBER ENERGIZE J510

Lot 125 is a product of our ET program out of the prevalent ABS sire, Energize F121. His dam had a great phenotype and produced 24 ET calves to her credit. This bull sticks out in the pen and we have no doubt he is going to get noticed on sale day. You would have to search a long time to find a bull in the breed with this phenotype that offers ProS in the top 6%, HB in the top 15%, and GM in the top 15%. We will rename this lot with his new owner as we are certain his impact on the breed will be felt for years to come.

LOT 126 BIEBER MAXIMUS J509

This bull offers a very stout phenotype and, like many of the Bieber Maximus E294 sons, he leads the breed in pounds for weaning weight and yearling weight traits . If you are looking to produce feeder cattle that crush the scale and do it with great carcass traits, this lot is one to add to your short list. He is a product of our ET program and as such has a full brother selling as Lot 130.

Lot 126 makes two Maximus sons in a row with growth in the top 1%. Maximus was purchased earlier this spring by Pieper Red Angus from the Cooksley and Reynolds families who shared use on the bull. As of press time he is at the stud so if you are looking for a high libido bull, these sons are definitely the place to go.

This is a great Complete son and the first one in the offering. Stacked with a dam that is a maternal sister to Atomic, he is bound to offer a lot of excitement.

LOT 130 BIEBER MAXIMUS J514

Lot 130's dam Joan 413E has been in our ET program and if you take a look at her record, you can easily see why. She has a MPPA of 109 and a weaning weight ratio average of 110. Data like that puts her in very exclusive company. He is yet another Maximus E294 son that will give you outstanding growth with weaning weight and yearling weight EPDs in the top 1% of the breed. His full brother is offered earlier in the sale at Lot 126.

For supporting and attending the Bieber Fever Fall Female and Bull Sale. If you have any questions, you can contact us at (605) 439-3628.

earl Creek Cattle Company of Cavour, SD

40 Head of Commercial Heifer Lots Shawn Miner (605) 830-2750 or Donnie Miner (605) 354-7070

These are home raised heifers that have been bull bred to sons of Bieber CL Stockmarket E119. The bulls were turned out June 1, and the heifers will calve for 35 days from March 1. These heifers have been on our sale for several years and have become widely known as having great disposition and very good maternal instincts. The Miner's have been using Bieber Red Angus bulls since 1999.

These heifers will be ultrasounded for calving date, sorted into uniform calving groups, and sold in sets of five or more. Five heifers will be tagged with the first lot and consecutively with every five after that. They will sell in lot tag order. Each group will be tagged in a series, so the winning bidder will have the right to buy the first five and as many as they want within that lot in increments of five at the sale price. Video will be available through our website prior to the sale.

The Miner Family

rentwood Farms of Cherokee, IA

40 Head of Commercial Heifer Lots Brent Wolfswinkel (712) 221-5394

Brent purchased these heifers from Emery Red Angus out of Frederick, SD. The Emery's have been breeding commercial Sim-Red Angus for many years. The heifers have been AI bred on May 2 to Bieber CL Stockmarket E119. They were then turned out for 30 days with three star calving ease sons of Bieber CL Atomic C218 and Bieber CL Energize F121. The AI heifers are due February 4 and the remainder will calve for 30 days from February 13. Around 60% of the group are bred AI.

These heifers will be ultrasounded for calving date, sorted into uniform calving groups, and sold in sets of five or more. Five heifers will be tagged with the first lot and consecutively with every five after that. They will sell in lot tag order. Each group will be tagged in a series, so the winning bidder will have the right to buy the first five and as many as they want within that lot in increments of five at the sale price. Video will be available through our website prior to the sale.

The Wolfswinkel Family

Pick and Shelly (Ammann of Wilmot, SD

45 Head of Commercial Heifer Lots Rick Ammann (605) 949-1697 or Shelly Ammann (605) 938-4137

These are home raised heifers that have been AI bred on June 10 and 11 to Bieber CL Atomic C218. They were then turned out with two sons of Bieber CL Stockmarket E119 and one maternal brother to Atomic sired by Bieber Let's Roll B563. The bulls were in from

June 13 to July 26. The heifers will calve for 45 days from March 5. The steer calf mates to these heifers have topped the Superior Sale in Sheridan, WY for several years and have averaged around 615 pounds with delivery the first week of November. The Ammann's have been using Bieber Red Angus bulls since 1991 and Red Angus bulls since 1988. They received GridMaster awards in 2018 and 2019.

These heifers will be ultrasounded for calving date, sorted into uniform calving groups, and sold in sets of five or more. Five heifers will be tagged with the first lot and consecutively with every five after that. They will sell in lot tag order. Each group will be tagged in a series, so the winning bidder will have the right to buy the first five and as many as they want within that lot in increments of five at the sale price. Video will be available through our website prior to the sale.

Rick and Shelly Ammann

### **REFERENCE SIRES**

This group of sires displays the foundation of our program and provides the elite Red Angus genetics that our cattle are famous for. We list the sires that have the most progeny in the sale, as well as those that have been mated to the most females in this offering.

### **BIEBER CL STOCKMARKET E119**

Stockmarket has hit the breed with a pedigree that provides an opportunity to make multi-trait improvement and add phenotype. He offers calving ease with great performance and excellent carcass. We've really liked what we see in the phenotype of the daughters. They have a lot of brood cow characteristics with good udders. His progeny are long bodied with a lot of rib and smooth hoof shape. Stockmarket was sixth in registrations and was the first Red Angus bull to break the top 10 of beef bulls at Select Sires. This sire and his progeny do a lot right! Look for the Stockmarket pedigree to be in about every sale you go to this fall. Additionally, his dam sells as Lot 1 and is one of the best cows to walk our place.

### **BIEBER DCWARHEAD F120**

Bieber DC Warhead F120's progeny have crushed the scale. The cattle he produces have a great disposition and there's no doubt that they will add more payweight to your crop. If you venture up to Opheim, MT where the Northern Lites operation is located, you'll see Warhead wandering the streets of the small town he calls home. Warhead's dam has been flushed extensively and sells as Lot 84 in this sale - make sure to take a look at her!

### **BIEBER SPARTACUS A193**

Spartacus was the sixth most used bull in the Red Angus breed in 2021-2022 and rules when it comes to great disposition cattle. He has been a mainstay in our program for many years and you can see many of his offspring making waves of their own within the breed to this day.

### **BIEBER MAXIMUS E294**

Maximus is our growth leader and when you come to look at the offering, you will like how stout the progeny are! He leads the breed for growth, so if you want to use him on cows for more pounds he will do it well. His dam was a very productive cow that raised two sons we have used in our program - Iron Warrior and Maximus. The thing that caught every visitor's eye this spring was how good his daughters are. We realize the data does not reflect it now, but we believe when they enter production in volume it will change. We believe having a maternal sire that is a foreign animal - in this case, Australian Sire Paringa Iron Ore E27 - does make it necessary to have more data in the system to determine their true genetic value.

### **BIEBER ROUSE SAMURAI X22**

Samurai X22 was the sire of Spartacus and has several daughters in this offering. He is a solid sire all around and is still in the top 30% of the breed for growth.

## **REFERENCE SIRES**

### **KJL/CLZB COMPLETE 7000E**

KJL/CLZB Complete 7000E is the \$190,000 bull marketed during the 2018 spring sale season through the Hueftle operation that is adding power and muscle to the breed at a rapid rate. His ability to produce elite phenotype with outstanding data is unparalleled among his peers. Several reputational breeders have commented that he is one of the best footed older bulls that they have seen which is such a valuable trait to any operation. We used Complete during the breeding season and are offering the first sons in this sale. Make sure to take a look at the progeny he has to offer.

					MASTER K							GP

### **ANDRAS FUSION R236**

With eight daughters selling in this offering we thought Fusion R236 was worth mentioning in the Reference Sire section. His impact on the breed from a maternal standpoint has been unmatched in recent years. He is the sire of Atomic C218 and Forefront B281, and the grandsire of Energize F121, Warhead F120, and Stockmarket E119. It is hard to understand the impact of a sire like this when you see him in a stud after a 20-hour trailer ride, but his influence has been important to our program.

### TJS GATE KEEPER F106

We selected Gate Keeper in the annual Red Truck sale from the Shick program. Tim always thought a lot of the Berry Cherry daughters, and this one did a great job. He is stout, good looking, and a different pedigree for us. His sire was a leading Lancer R017 son, one that always intrigued us.

### **BIEBER CL ATOMIC C218**

Atomic is a proven sire in our program and has already been a phenomenal producer of females and maternal traits, and he does so with excellent data across the board. He is an easy moving bull with the kind of soft structure that we feel will increase cowherd longevity. We really like the daughters we have and they have been very productive. Atomic was the ninth most used bull in the breed and was especially favored by commercial producers that were breeding heifers. They liked the calving ease and vigor that young calves exhibited out of him. Several daughters sell in this offering.

### **BIEBER CL ENERGIZE F121**

Energize was one of the most talked about sires - red or black - at Origen in MT last summer. Energize blends an outstanding growth curve with outstanding GridMaster values. His progeny have continued to impress us every step of the way. His sire Atomic's daughters have been impressive and we have no doubt with the Adelle cowline in his pedigree the Energize daughters will continue to impress. Energize has a lot of body and dimension and has a bold spring of rib and great foot structure. His dam Adelle 575D sold last fall and is now being flushed by Mathias Ranch. We expect great things from this sire and the progeny we are offering in this sale are just the front end of a lot of great cattle.

### **BIEBER ROLLIN DEEP Y118**

Rollin Deep Y118 has been one of those rare sires that truly elevates the breed. He was an impressive individual from the start, posting outstanding data with one of the deepest phenotypes we had ever seen on the ranch. His progeny have continued to prove impressive and our customers found that his sons complimented their programs and added muscle, great data, and superior style. This year's offering has a lot of great matrons sired by this legend in the breed.

### **BIEBER HARD DRIVEY120**

Hard Drive has been the pinnacle of our program in past years and for good reason. His data hits a lot of sweet spots across the board and his daughters are outstanding. We often get visitors that marvel at his daughters and we understand why. We have always tried to keep mature size in check and we feel that Hard Drive and Rollin Deep, along with their progeny, do a great job of that. Hard Drive is a very impressive sire all around. Many daughters sell in this offering.

### **BIEBER HARD DRIVE E640**

E640 was a son of Hard Drive that we use natural service. We are excited about one of his sons that we now have calves out of, Flashdrive G266. E640 is a high libido bull that is always looking for cows to breed. He has great length of body along with very impressive data.

# PROFIT. REPEAT.

# Generate repeated profits with Red Angus bulls.

Year after year, despite unpredictable market conditions, cattle producers see increased ROI on their Red Angus-sired calves that excel both in the yard and on the rail. Increase your profit potential with Red Angus genetics and experience the Red Angus advantage.

### Visit RedAngus.org for details on Red Angus marketing programs.

# Research Validates Red Angus as Most-Favored Female

Ranchers across the country have long recognized the value of Red Angus females as the foundation of a profitable cowherd. Now, independent research validates those years of cattle production experience with tangible data proving the Red Angus heifer's worth.

### **Research Confirmation**

Esther McCabe, et al., of Kansas State University, led a study that confirmed Red Angus are the most-favored female in the industry. McCabe and her team compiled five years' worth of pricing data from Superior Livestock Auction, comparing 13,804 lots of heifer calves totaling over 1.2 million head that sold in 116 video auctions.

The research team evaluated the effects of independent variables on the sale price of heifer calves that fell into six different breed composition groups: English, English crosses, English-Continental crosses, Black Angus-sired out of dams with no Brahman influence, Red Angus-sired out of dams with no Brahman influence, and Brahmaninfluenced.

They deduced that Red Angus-sired heifer calves bring \$5 to \$9 more per hundredweight than all other breed types.

#### **Rancher Trusted**

While market research validates the price advantage of Red Angus heifers, ranchers have tested and trusted her worth on the range for years. Red Angus females are desirable as replacement heifers because they mature into productive mother cows that reward producers with extra dollars in their pockets on sale day.

Red Angus cows have gained ranchers' trust as a complete package through fertility, fleshing ability, good disposition, longevity and excellent overall production. They produce feeder calves that earn premiums in the yard and on the rail through docility, feed efficiency, conversion and carcass merit.

Over the years, stockmen have voted with their checkbooks, purchasing heifers they know will bring profitability to their ranching businesses – and Red Angus females are their most-favored choice. ■

Independent research studying five years of Superior Livestock Auction data confirms the value of Red Angus replacement females.

#### **Red Angus Stockyard**

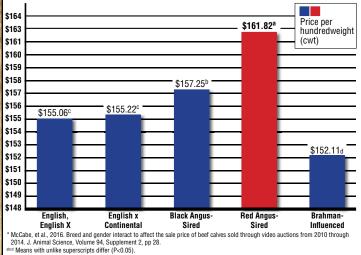

List or locate quality Red Angus replacement females at stockyard.redangus.org. Over 20,000 head of cattle are sold each year through the Red Angus Stockyard.

#### FeMail

An electronic tool to help locate or market ranchtested replacements. Market your open heifers, bred heifers or cows, or cow-calf pairs. FeMails are designed for offerings of 25 head of more to complement listings on the Red Angus Stockyard.

This lot offers excellent growth to any operation.

1. Lot Number - This is the lot number of the animal. Cattle will have a white tag that will correspond to that number. Generally cattle will sell in lot number order.

2. Name - This is the registered name of the animal. Generally we name bulls after the sire and females after the dam

3. Born - This is the birth date of the animal.

4. Reg - This is the Registration number of the animal. All Red Angus animals can be looked up on the Red Angus website by going to the animal search page and using this registration number.

5. Breed - This area has the breed composition and category as determined by the Red Angus Association of America. Breed Codes are:

• AR = Red Angus

 SM = Simmental • XX = Unknown

The Unknown cattle are largely cattle we weren't able to prove parentage on in the Durheim herd. The unknown breed is either Simmental or Red Angus in the Durheim foundation cattle.

6. Category - This is the category as defined by the Red Angus Association. Categories are:

1A = 100% Red Angus with no disqualifying features.
1B = 87% to 99.9% Red Angus with no disqualifying features

• II = Equal to or greater than 87% up to and including 100% Angus blood content having one or more disqualifying features. Disqualifying Features include scurs

or horns, ineligible white, black pigment, progeny of multiple sire groups, and missing birth date, or weaning weight and date. III = Less than 87% Angus blood content.

7. Sire - Sire of the animal

8. Paternal Grand Sire - Sire of the Sire

9. Paternal Grand Dam - Dam of the Sire.

10. Dam - Dam of the animal

11. Maternal Grand Sire - Sire of the Dam.

#### 12. Maternal Grand Dam - Dam of the Dam.

13. MPPA - Most Probable Producing Ability. An estimate of a cow's future productivity for a trait (such as progeny weaning weight ratio) based on her past productivity. For example, a cow's MPPA for weaning ratio is calculated from the cow's average progeny weaning ratio, the number of her progeny with weaning record, and the repeatability of weaning weight.

14. AoD - Age of Dam at the time of weaning.

15. ADG - Average Daily Gain. Measurement of daily body weight change over a specified period of time of an animal on a feed test.

16. ADG Ratio - Average Daily Gain Ratio. The ratio of the animal within its contemporary group. ET and Twins will be marked with a TW and ET. These animals have no contemporary group.

17.WDA - Weight Per Day of Age. Weight of an individual divided by days of age

18.WDA Ratio - Weight Per Day of Age Ratio. Weight of an individual divided by days of age. ET and Twins will be marked with a TW and ET. These animals have no contemporary group.

19. AScr. - Adjusted Scrotal Circumference. A measure of testes size obtained by measuring the distance around the testicles in the scrotum with a circular tape. Related to semen-producing capacity and is adjusted to Yearling age. Actual Scrotal Measurement are provided on a supplement sheet at the sale.

20. CE - Calving Ease Score. This is our recommendation for CE based upon the data and the pedigree.

*** = Use on heifers; expect less calving difficulty. ** = Use on growthy heifers and cows. Expect moderate calving difficulty on heifers and very little on cows. * = Use on cows; expect calving difficulty on heifers and

some to very little on cows. 21. Growth Sc. - Growth Score, This is our

recommendation for growth based upon the data and the pedigree.

- G6 = Maximum growth rating
- G5 = High growth rating.
- G4 = Moderately high growth rating.
  G3 = Average growth rating.
- G2 = Below average growth rating.
- G1 = Low growth rating.

22. EPD Data Generated - The date this EPD data was pulled from the Red Angus Association website.

23. EPD - Expected Progeny Difference. The difference in expected performance of future progeny of an individual, compared with expected performance of future progeny of an individual of average genetic merit in the base time frame for the genetic evaluation.

EPDs are estimated from phenotypic merit of an individual and all of its relatives and are estimates of one-half the breeding values. EPDs are generally reported in units of measurement for the trait (e.g. lb., in., etc.).

acc - Accuracy. A measure of the reliability of an EPD. Accuracy values are reported as decimal numbers between zero and one. Values closer to one indicate larger amounts of available information and greater certainty that a bull's EPDs will not change significantly as more progeny information becomes available. Bieber Red Angus reports the accuracy values for sires since they have high accuracies. EPDs are a more reliable estimate of performance than weight, ratios or other measurements

 ${\bf 24.\,Rank}$  - This is the percentage rank of the EPD within the type of animal. Rank groups include Proven and Opportunity Sires, Active Dams, and Non Parent under Two Years of Age.

25.Wts - Weight. The weight for that trait in that column adjusted to a constant days of age by Red Angus Association and Beef Improvement standards

26. Ratio - The ratio for that trait in that column within its contemporary group. ET and Twins will be marked with a

TW and ET and have no contemporary group.

27. CED - Calving Ease Direct. Predicts the probability of calves being born unassisted out of two-year-old heifers. Producers want live calves born unassisted. Selecting on actual birth weight is flawed; it is influenced by nongenetic factors such as nutrition and weather (ambient temperature). While BW EPD removes these non-genetic factors, Red Angus CED EPD is the best predictor of calving ease. The CED EPD includes variation in BW plus other influential genetic factors such as gestation length, calf shape, etc.

28. Birth Weight EPD - Predicts the difference, in pounds, for birth weight, and is also used in the calculation of the Calving Ease Direct (CED) EPD.

29. BW - Birth Weight. The actual weight in pounds at birth.

30. Weaning Weight EPD - Predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age). This is an indicator of growth from birth to weaning.

31.WW - Weaning Weight. The 205 adjusted weight. This is an indicator of growth up to weaning.

32. Yearling Weight EPD - Predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age). This is an indicator of growth from birth to yearling.

33.YW - Yearling Weight. The 365 adjusted weight. This is a measure of growth from birth to yearling.

34. Milk EPD - Predicts the difference in maternal production of an individual animal's daughters as expressed by the weaning weight of their calves.

35. ME EPD - Maintenance Energy. Predicts the difference in daughters' maintenance energy requirements and is expressed in Mcal/Month. Recognizing that 70% of cowherd feed costs are burned up in maintaining weigh and condition, Red Angus' ME EPD allows for the selection of bulls whose daughters will require less feed; thus, reducing cowherd expenses. Includes selection pressure for ME EPD to ensure feed costs don't get out of line when selection is made for greater performance and production. At Bieber Red Angus we collect a cow weight at weaning time to ensure greater accuracy of this EPD.

36. HPG EPD - Heifer Pregnancy. Predicts the probability of heifers conceiving to calve at two years of age. Many breeds offer genetic predictions of yearling bull scrotal circumference as an indicator of age of puberty. While puberty is a prerequisite, many factors influence pregnancy rate. Red Angus' HPG EPD offers a tool which selects for what is economically relevant to ranchers - pregnant heifers. At Bieber Red Angus we submit all heifer breeding data to ensure the accuracy of this EPD.

37. CEM EPD - Calving Ease Maternal. Predicts the probability of a given animal's daughters calving unassisted at two years of age. Replacement heifers should be able to calve on their own. Red Angus' CEM EPD offers the industry's most reliable prediction to address that concern. It includes not only the predisposition for a female to calve unassisted, but also her contribution to her calf's traits that make it more likely to be born unassisted.

38. STAY EPD - Stayability. Predicts the probability of a bull's daughters remaining productive until at least six years of age. Why six? That's how long it takes a female to breakeven given all the expenses of development.

39. MARB EPD - Marbling. Predicts differences for carcass marbling score as expressed in marbling score units. Higher marbling scores are positively correlated with higher carcass quality grades.

40. REA EPD - Rib Eye Area. Predicts differences of carcass Rib Eye Area between the 12th and 13th rib. Increased Rib Eye Area has a beneficial effect on Yield Grade which also includes Carcass Weight and Fat Thickness

41. FAT EPD - 12th Rib Fat Thickness. Predicts differences for carcass fat depth over the 12th rib, as expressed in inches. Increases in fat thickness have a detrimental effect on Yield Grade. Fat thickness measured in young seedstock may be an indicator of fleshing ability.

42. HerdBuilder Index - As the name indicates, implementation of the HerdBuilder Index will assist producers in building profitable herds. The HerdBuilder Index is built using the following production scenario: · Red Angus bulls mated to cows and heifers (resulting progeny ³/₄ Red Angus, ¹/₄ Simmental). • Replacement heifers retained from within the herd.

• All remaining progeny sold on a quality-based carcass grid.

43. GridMaster Index - While Red Angus has traditionally been known as a superior maternal breed, those who have retained ownership in Red Angus calves know of their potential to excel in the feedvard and ultimately hang a premium carcass. The GridMaster Index is built using the following production scenario: • Red Angus bulls mated to cows (resulting progeny 3/4 Red Angus, 1/4 Simmental) • All progeny sold on a quality-based carcass grid

44. ProS Index - Profitability and Sustainability is an all-pupose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

45. Top Dollar - A third party evaluation on growth and carcass traits of an animal. Lots with this logo rank in the top 25% of the breed for growth and carcass EPD traits.

46. DNA - The DNA test submitted on this animal for parentage and genomically enhanced EPDs.

47. Footnote - This is information we would like to point out about the lot. It may contain breeding information on bred cattle.

### JEFF FORSTING, Columbia, South Dakota, sold 103 Top Dollar Angus-qualified steers and heifers at Hub City Livestock Auction, Aberdeen, South Dakota. Their sponsorship was provided by Hart Angus Farms, South Dakota.

Forsting's cattle brought a healthy \$21.14 per head above market average for their weight, sex and group size. That's a good return on a \$4 investment.

**HESTER FARMS**, Keeline, Wyoming, marketed 200 steers and 106 head of heifers at Torrington Livestock Auction. Their sponsorship was provided by Ken Haas Angus.

Hester's 200 steers achieved a \$44.42 premium per head above the average for the day while the 106 heifers brought \$24.75 per head over average. A commendable achievement at the reputable Torrington Livestock Auction.

Top Dollar Angus steers and heifers at the 2022 Superior Livestock Bellringer sale saw an average \$11.35 per head above the average.

Top Dollar Angus helped customers' genetic investments in the Bieber Red Angus, Schriefer Red Angus and Huber EY Red Angus programs stand out! Customers were in the Bellringer sale.

Verified

**MARK MORLOCK**, Eureka, South Dakota, sold 56 head of Top Dollar Angus-qualified steers and 50 head of Top Dollar Angus heifers at Hub City Livestock Auction. Hart Angus sponsored the program.

Mark's 50 head of Top Dollar Angusqualifed steers returned an additional \$41.48 per head above market average for their weight and sex with the heifer mates beating the market average by a \$38.35 per head at the very respectable Hub City Livestock Auction average.

**ALLEN OLSON**, Box Elder, South Dakota, marketed 81 head of Top Dollar Angusqualifed steers at Philip Livestock Auction, Philip, South Dakota. The sponsorship was provided by Lone Tree Red Angus.

At the end of day, Olson's Top Dollar Angus-qualified steers averaged a healthy \$63.95 per head above the market average for their weight, sex and group size.

Top Dollar Angus has the necessary resources to provide third-party genetic verification of high-quality Angus and Red Angus-influenced feeder calves and females. Combining genetic verification with our extensive network of seedstock partners and feedyards allows Top Dollar Angus to deliver the unique ability of marketing assistance to our customers and truly connect people to people and people to profit.

# LEGAL TERMS AND CONDITIONS

The Red Angus Association Terms and Conditions will apply if the terms and conditions printed here are not applicable.

**BIDDING DISPUTES**: The auctioneer in charge will settle any disputes as to bids. His decision on such matters shall be final.

**TERMS**: The terms of the sale are cash; the right of property shall not pass until after settlement is made. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the ranch.

**RETAINED INTEREST**: We are retaining 1/2 interest in all bulls in the sale. We are selling the remaining 1/2 interest, full possession, and full salvage value on these bulls. This option gives Bieber Red Angus Ranch the option to collect, use and market semen from the bull, and does not restrict the purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Bieber Red Angus Ranch, at the buyer's convenience. Also at the time of purchase, the highest bidder on a retained interest bull may elect to purchase exclusive semen rights for 100% of the purchase price in addition to the purchased price on retained bulls. If a buyer elects to purchase exclusive semen rights, Bieber Red Angus Ranch's interest then becomes in herd use only. Bieber Red Angus Ranch retains all rights to use the bull within their herd.

**SEMEN RIGHTS**: Buyers receive semen rights proportional to the interest purchased. If you purchase a 1/2 interest, then you are entitled to 1/2 of the semen collections at cost, provided that you indicate you want semen prior to collection. We intend to collect some of the bulls in the sale and sample them in our herd. We will cooperate with the buyer in collection of the bull. We prefer to collect most bulls after the first season of use, and we will contact the buyer when we intend to collect the bull at a time convenient for the buyer.

**PURCHASER'S RISK**: Each animal becomes the risk of the purchaser as soon as sold. Animals will be fed, watered and cared for at the purchaser's risk for a reasonable time.

**CERTIFICATE OF REGISTRY**: A certificate of registry and transfer will be furnished for each animal sold as a registered animal, after settlement has been made.

**HEALTH**: All cattle will have official health certificates and will sell guaranteed export to Canada. Canadian health certificates will be charged at cost on animals selling under \$4000.

**ANNOUNCEMENTS**: Changes of information contained in this catalog relating to the animals offered for the sale will be announced from the auction block and such announcements shall take precedence. Errors discovered in the catalog will be corrected by announcements at sale time, and such corrections will take precedence over the printed matter in this catalog.

**BREEDER'S GUARANTEE**: 1. All animals are guaranteed breeders, with the exception of: a) calves under twelve months of age; b) animals shown by Purchaser after sale (in cases of animals shown after purchase, the breeding guarantee, if any, shall be such as agreed upon between Seller and Buyer) c) any open heifer that has been flushed for embryo transfer; or d) gross negligence or willful misconduct on the part of the Purchaser. 2. Bulls are guaranteed breeders if not allowed to run with the herd until at least 14 months of age. Any bull which either: a) settles 1/3 or more of the healthy cows he serves; b) is the sire of 20 or more animals; or c) settles cows by natural service and passes a fertility test made by a competent veterinarian during any 6 month period of trial (provided for in paragraph 2 of the section of these sale terms and conditions entitled "Options and Privileges of Return or Adjustment") shall be considered a breeder.

Any guarantee with respect to the ability to freeze semen shall be by separate agreement between Buyer and Seller.

All guarantees are limited to the amount of the purchase price.

Open females have not been served and are so guaranteed.

**IDENTIFICATION**: Each animal carries an EID tag for identification. That EID corresponds with the ID of the animal and is recorded with the Red Angus Association. Tag numbers on the cattle correspond with lot numbers in this catalog. Purchaser agrees to use full name of animal in advertising and on stall cards at shows.

#### OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

1. All claims for adjustment or refund must be made in writing either within six months of the sale date or no later than six months after the animal reaches 18 months of age, with the exception of claims involving defects or parentage.

2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm of the Seller if in good condition and complying with the health requirements of the Seller's state. The Seller shall be entitled to six months' trial following the return of the animal in which to prove the animal is a breeder. The Seller shall, at the option of the Buyer, replace the animal with another of equal value or grant the Buyer a credit for use on any products marketed by the Seller. Such credit of the full purchase price shall in any case be deemed full satisfaction and settlement. Any expense incurred for transporting an animal claimed to be a non-breeder shall be the responsibility of the Purchaser, except that the Seller shall be responsible for the transportation costs in excess of the distance between the Purchaser's farm and the location where the sale took place. If the Seller proves the animal is a breeder, it shall be the obligation of the Purchaser to take delivery of the animal and pay all expense incurred for transportation.

3. If a female sold as "safe in calf" proves not to be in calf, the Purchaser may receive service from the bull previously used, if available, or if the bull is not available, the Seller shall be obligated to make a satisfactory adjustment on the purchase price upon return of the animal to the farm of the Seller. Any adjustment provided for herein shall absolve the Seller from further liability, except in case such female proves to be a non-breeder. If a female represented as "safe in calf" at time of sale to a certain bull proves to have been bred to a different bull, the Seller shall be obligated to take a satisfactory adjustment on the purchase price upon return of the animal to the farm of the Seller (adjustments shall not be considered to a breeding fee or an allocation of the purchase price to any unborn calf). Any expenses incurred for transportation shall be the responsibility of the Purchaser, except that the Seller shall be responsible for the transportation costs in excess to the distance between the Purchaser's farm and the location where the sale took place.

4. If a female sold as "served" proves not to be in calf, or if a female sold as "pasture-bred" proves not to be in calf, the Seller only guarantees such female to the breeder.

5. If a female sold as "open" proves to be with calf, the Purchaser may return the animal to the farm of the Seller prior to calving for a credit of the full purchase price or for another animal of equal value, whichever is acceptable to the Purchaser. It shall be the obligation of the Seller to bear any expense incurred for transportation.

**LIABILITY**: Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise, for damages of any kind.

**CONTRACT**: The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

**IMPLIED WARRANTY**: Except for those stated in the terms and conditions, there are no warranties, either expressed or implied, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in terms and conditions are in lieu of all other warranties, either expressed or implied, and the remedies proved therein shall be the sole and exclusive remedy of the buyer, or any part claiming through buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

WE LOOK FORWARD TO SEEING YOU IN MARCH FOR OUR...
