BRED FEMALES

All bred females declared bred when sold are with calf confirmed by arming the cows the week prior to the sale. We guarantee bred females to be pregnant at the time of sale unless announced otherwise. The seller makes no guarantee that a bred female will deliver a calf or carry a pregnancy to full term. Any request for refund on bred females must be made within one month of receiving the female and they must be returned to Bieber Red Angus in Leola, SD. Any consideration after the one month time period will be in the form of a credit towards a future purchase.

EPD INFORMATION

In this catalog we have included data on the core performance traits. With the ever-expanding database predictions on more traits than ever before, we have had to narrow our EPD selection to these core items. If you would like additional information on any traits not listed, please let us know. The EPDs provided are current as of the date listed under *EPD DATA GENERATED*. Real time data can be found on www.RedAngus.org.

SCHEDULE OF EVENTS

WEDNESDAY, NOVEMBER 13

8:00 am	Sale cattle available for viewing all day
9:00 am	Coffee and supplement sheets available in sale barn

THURSDAY, NOVEMBER 14

8:00 am	Sale cattle available for viewing
9:00 am	Coffee and supplement sheets available in sale barn
11:00 am	Lunch will be served in sale barn
1:00 pm	Sale time
5:00 pm	Dinner served following the sale

SALE LOCATION

Bieber Red Angus Ranch, 11450 353rd Ave, Leola, SD 57456

The ranch is located nine miles west of Leola on Highway 10. When you see the Bieber Red Angus Ranch sign, turn north and go 1/2 mile.

SALE ORDER

Sale order will be commercial heifers first, then proceed in catalog order. Any variations from this order will be announced prior to the sale.

DELIVERY POLICY

Please review our delivery policy on Page 4 for info on delivery costs and central delivery points.

PLEASE NOTE: The pricing policy on Page 4 DOES NOT apply to commercial lots. Delivery of all commercial lots will be charged to the buyer at FULL COST.

INSURANCE

Mortality and Accident, Sickness and Disease Infertility Insurance will be available by Katie Williams of Martin-Trudeau Insurance. Contact Katie at (605) 770-9986 with questions.

ONLINE BIDDING

The sale will be broadcast live over the internet through DVAuction. To bid from your computer during the sale, complete this simple two step process:

- Visit www.dvauction.com or call (402) 474-5557. Register by entering a User Name and Password. Enter your personal information on the next screen.
- Click "Apply for Bidding." Select the Bieber Red Angus Sale from the list of sales and click "Apply." Complete the process by filling out the Banking and Lending information requested.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale. We will assign you a buyer number after you have made a purchase on the sale through DVAuction. After the sale, Bieber Red Angus will contact you to make arrangements for payment and delivery of your purchases.

Please Note: You must have high speed internet access (DSL, T-1, or Broadband) to bid during the sale. Any questions, please contact DVAuction at (402) 474-5557 or support@dvauction.com. We recommend that you register at least one day before the sale for online bidding.

CATALOG LETTER

Welcome

TO OUR 2024 FALL FEMALE AND BULL SALE!

We want to thank each of you for taking the time to learn about our operation and take a deeper look at the cattle we have to offer at this sale. We work hard to provide our customers with cutting edge genetics that excel in all segments of the beef industry. To us that means breeding for growth, fertility, calving ease, maternal, and carcass traits. These traits should come in a functional package, with good feet, udders, and disposition, without giving up style and eye appeal. We truly believe through focused selection, you can have it all.

Our program has been influential in the Red Angus breed, and the cattle industry as a whole, for over 50 years. Through those years, we have seen many different seedstock breeders come and go - some much quicker than others. We use our experience and knowledge of development to produce seedstock cattle that will offer longevity and productivity. That means you get a product that is far above the average of the industry.

Our crew is passionate about making cattle better. To do that, we have learned a lot about the basics of the cattle business. We find ourselves constantly monitoring the information in the industry to make sure we have knowledge that will benefit you when you need advice. When new technology becomes available, we analyze it to make robust decisions on how to use it to be more profitable.

Our program has a focus on profit that is second to none. The proof is in the pudding: four of the top ten most used Red Angus bulls were produced by our program, and two additional Bieber herdsires fall right outside the top ten. We focus on profit and quality in every part of our program and daily work to give you the consistency you want in your cowherd. We have always felt good seedstock in volume pushes prices to a level every cattle producer can afford. After reading this, I personally hope you take the time to do one of the following things:

- Come to our ranch and look at this offering.
- Get on our website and take a look at our lot videos.
- Call me, Jake Harms, or Craig Howard for a personalized bull or female list that fits your operation.

We know our future and success depends on customer satisfaction. Repeat customers, long-standing relationships and real genetic value are what we aim to produce. We continue to promise that if you have a problem, we will do our best to make sure you are satisfied.

On sale day, we look forward to seeing our customers that have become friends and meeting new customers that we hope to have a long-standing relationship with. We are excited to see you at the Bieber Fever Fall Female and Bull Sale.

CRAIG J BIEBER

Our Family

Back L to R: Eric and Megan Payne, Craig and Peggy Bieber, Holton Harms, Kristin and Jake Harms

Front L to R: Londyn Harms, Kylie Payne, Hartley Harms, Presley Payne

MEET THE TEAM

CRAIG AND PEGGY BIEBER

Craig and Peggy are the owners and operators of Bieber Red Angus. As CEO, Craig oversees the operation of the ranch and coordinates the selling of more than 550 Red Angus bulls each year. Peggy is his partner and the full-time office manager at the ranch. She manages all bookkeeping, cattle record entry, and sale clerking. Together, they work diligently to market exceptional cattle to seedstock and commercial cattlemen alike.

JAKE AND KRISTIN HARMS

Jake and Kristin are Craig and Peggy's son-in-law and daughter and the next generation on the operation. Jake oversees the feeding plan for the Bieber herd and handles cattle sales with Craig, along with his herdsman duties. Kristin handles the marketing and works in the office with Peggy. Both are committed to the future of the operation.

CRAIG HOWARD

Craig is the cow boss at Bieber Red Angus. He manages the daily operations of the ranch including breeding, calving, overall cattle care, and maintenance. Craig knows the Bieber herd as well as anyone, having been with the ranch for almost 18 years, and is committed to the program he has helped build over his tenure.

JACKSON SIMONDS

Jackson is a herdsman. He is our all-around guy that focuses on feeding, maintenance, cattle care, cattle handling, and calving, among his other ranch duties. He has become a veteran on the team and has really honed his skills as an exceptional ranch hand.

CORY ASH

Cory is a mechanical and feeding specialist. He focuses on feeding and maintaining all of our farm and ranch equipment, among his other ranch duties. He is a hard worker, pays close attention to detail, and is an excellent addition to our ranch team.

CARL DREIS

Carl is a herdsman. He focuses on cattle care, cattle handling, and calving, among his other ranch duties. He has a lot of all around ranch experience that makes him willing to jump in on any task as needed. He rounds out a really great group of team members.

LOIS BIEBER

Lois is a co-founder of Bieber Red Angus. She and Ron established the Red Angus herd in 1968 with proven cows from leading breeders. Lois resides in Aberdeen but continues to help with the sale and visits often!

DELIVERY POLICY

We have outlined our delivery arrangements and pricing below and we encourage each of you to review the details. Please stop by our check out counter prior to leaving the sale to coordinate delivery plans on your animals. If you are not onsite on sale day, Craig will be in touch with you within a week of the sale to coordinate the delivery of your purchases. We appreciate your patience and assistance when organizing delivery.

DELIVERY PRICING

As always, we will continue to offer free delivery to **CENTRAL POINTS** in South Dakota and North Dakota. For all other states, delivery will be charged to **CENTRAL POINTS** per head based on the pricing outlined on the map below. Pricing will be charged based on your physical address. Delivery charges will be added to each invoice at check out, unless you plan to load out within 7 days of the sale.

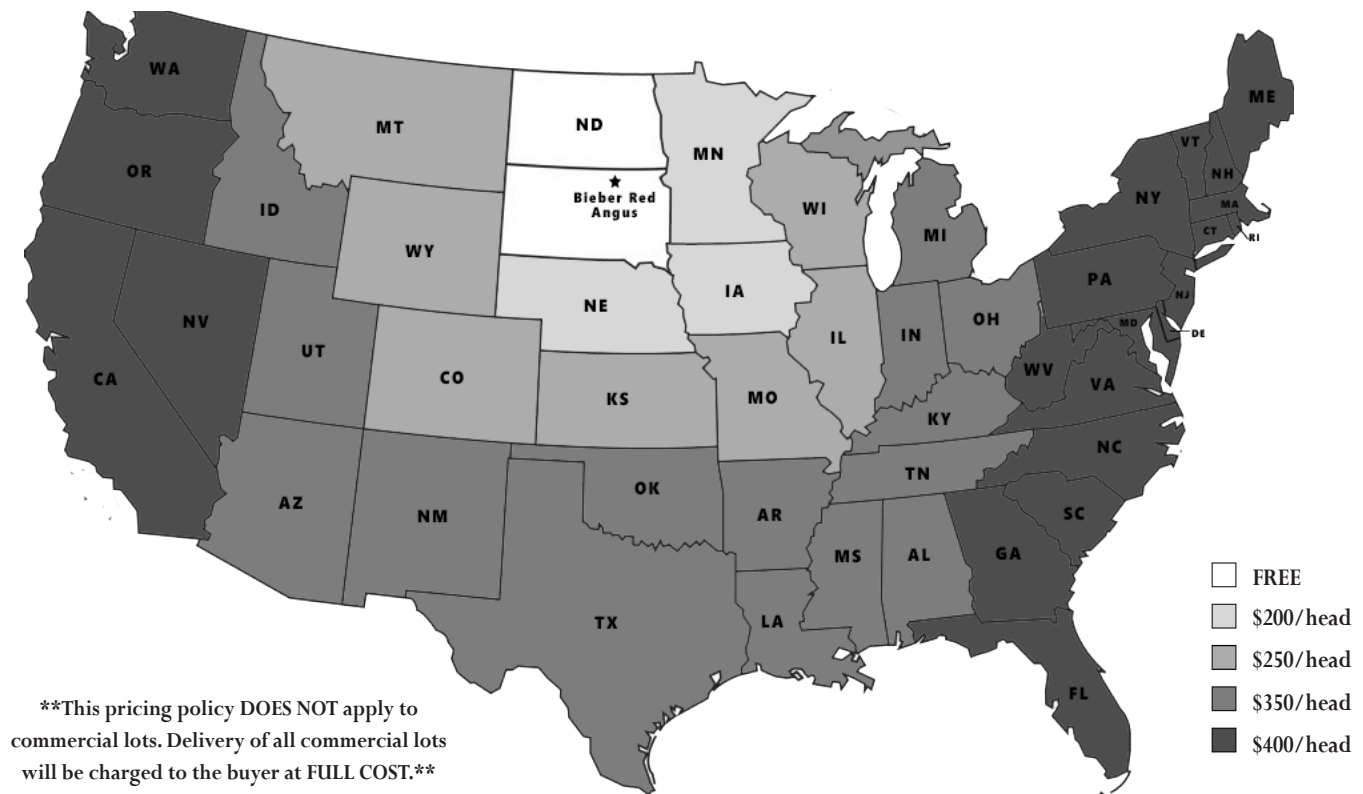

CENTRAL POINTS

All deliveries will be organized to **CENTRAL POINTS** within the state. Delivery will NOT be organized to your home or ranch. Loads are delivered by semi truck and require drop off points along their route with a loading chute and location to house livestock. You are expected to meet the semi truck driver at the central drop-off point as communicated by them. Central points for delivery include auction barns, vet clinics, and other locations determined by the semi truck driver at the time of delivery. Pricing to these central points will be charged to you based on your physical address. The driver will be given your contact information and will communicate with you regarding the drop off time and location.

FEEDING ARRANGEMENTS

If you are not ready to receive your animals when we plan to deliver to your area, feeding arrangements are available for a charge of \$3.50 per day per animal. Please coordinate these feeding arrangements after the sale.

We ask for your cooperation in arranging dates and the pick up of your cattle at central delivery points within your state. This will keep the cattle from being on the semi truck longer than necessary and help to get your animals to you with the least possible stress and in the best possible condition. We appreciate your understanding of our delivery policy and look forward to working with you on the delivery of your cattle. Please let us know if you have any questions!

SALE TERMS

HEALTH

Ashley Vet Clinic will be available on sale day. All cattle are on a complete vaccination program supervised by Ashley Vet Clinic.

In the past bulls have been tested for persistent BVD carriers and all tests were negative for a number of years. We have chosen not to test the bulls this year since no positives have been found in over 10 years. We have tested our replacement heifers for BVD since 2014 as part of our surveillance program and found no positive BVD carriers. Bieber Red Angus participates in the Beef Quality Assurance (BQA) program. Heifer calves have been Bangs vaccinated. We participated in a Johnes testing program for 10 years with no confirmed positives. We no longer test for Johnes disease but continue to diligently watch for any suspicious cases and test as necessary.

BREEDING SOUNDNESS EXAM

Breeding soundness screenings will be performed in November before the sale. We fully guarantee that these bulls will pass the breeding soundness evaluation before the breeding season in 2025 if the bulls are managed properly. Part of being maintained properly means being on a plan of nutrition where bulls maintain or gain weight. The bulls will be weighed the week prior to the sale when the breeding soundness evaluation is done. We recommend that all bulls be tested 4 to 6 weeks prior to your breeding season. Our guarantee will require that the bull weigh the same or more than when we did the breeding soundness evaluation in November 2024. We ask for your understanding if a bull does not pass. Sometimes bulls that have passed do not pass later for various reasons. We will do our best to make sure you are satisfied. Keep in mind that the development of any bull is inhibited by inadequate nutrition. If you have any questions regarding breeding soundness evaluation, feel free to call Craig or Dr. Dean Christensen at the Ashley Vet Clinic.

RETAINED INTEREST

We are retaining 1/2 interest in all bulls in the sale. We are selling the remaining 1/2 interest, full possession, and full salvage value. This option gives Bieber Red Angus Ranch the option to collect, use and market semen from the bull and does not restrict the purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Bieber Red Angus Ranch, at the buyer's convenience. Also at the time of purchase, the highest bidder on a retained interest bull may elect to purchase exclusive semen rights for 100% of the purchase price in addition to the purchased price on retained bulls. If a buyer elects to purchase exclusive semen rights, Bieber Red Angus Ranch's interest then becomes in herd use only, but Bieber Red Angus Ranch retains all rights to use the bull within their herd.

BIRTH WEIGHTS/CALVING EASE

We score for calving ease with our three star (*) scoring system. Three stars (***) indicates that a particular bull can be used on heifers under standard conditions with little or no calving difficulty. Two stars (**) indicates that a particular bull should be used on growthy heifers or cows under standard conditions with little or no difficulty. One star (*) indicates that a particular bull should be used on cows under standard conditions with little or no difficulty. This recommendation is a system we use to help our customers with calving ease selections.

Birth weights are highly affected by environmental factors. Research has indicated that the inclusion of corn in cow diets will increase BW. Also contributing to higher BW were cold temperatures. The University of Nebraska conducted a three-year study to research and evaluate effects of high and low temperatures during winter months on calves out of 384 two-year-old heifers. Average BW increased by 11 lbs. when temperatures were colder. The results agree with other studies comparing calves born in the southern US to calves born in the northern US. Weather plays an important role in BW and calving difficulty. We have adjusted the calving ease scores accordingly, taking into consideration what the calf ratioed on BW, pedigree, CE EPD, BW EPD and Genomic data.

SALE TERMS

COLOR

All animals are red unless otherwise indicated in the footnotes.

WEIGHTS

Birth weights, weaning weights, yearling weights, and all other measurements are taken at appropriate times to produce sound and accurate comparisons within contemporary groups. We group our Red Angus calves based on the age of our cows. Calves out of two-year-old dams, three-year-old dams, and the main cowherd are all separate management groups and therefore are separate contemporary groups. Embryo transplant calves are contemporized in the groups they are weaned with.

INTERNET AND ABSENTEE BIDDING

We would prefer for you to be in attendance on sale day. Realistically, we know that there will be scheduling conflicts and distance limitations. In these instances, we can arrange an individual to handle your bid over the phone so you can participate in the sale. Please call the office prior to the sale and register as a prospective buyer. We need to warn you of complications we have experienced with phone bidding including the volume of the phone and the rapid pace at which our sale moves. For internet bidding information, see the DVAuction section.

If you are unable to attend and you feel comfortable doing so, you also have the option to leave your bids with the Bieber crew, Auctioneer, or publication representatives. We handle many sight unseen bids and have very satisfied customers who feel confident in using this service. We prefer to have plenty of time to discuss your needs over the phone prior to sale day so that we may select the cattle that best fit your specifications. We buy those animals just like you were sitting ringside with us. We also guarantee the cattle and if they don't meet your expectations, you can return them. If possible, please evaluate the offering onsite prior to sale day. We will also post video of each lot on our website.

BREEDING DATA

Breeding data on the bred females, including sex of pregnancy and date of calving, is verified by ultrasound and is an estimate. Many years of ultrasound data has proven it is 99% accurate. This data is verified to the best of the veterinarian's ability depending on embryo age. We have included a footnote with each lot that lists the most likely calf sire based on the ultrasound data, but all females were AI'd and turned out with at least one natural service sire. DNA testing is recommended to determine calf sire.

FEEDING

Feeding arrangements are available on all lots and will be fed at a charge of \$3.50 per day. We will feed your purchases from sale day until you are ready to pick them up, or we will deliver them.

GENETIC DEFECTS

Every animal in the Bieber Red Angus production sale is guaranteed negative for the recessive gene associated with Osteopetrosis(OS), Arthrogryposis Multiplex(AM) (Curly Calf Syndrome), Neuropathic Hydrocephalus (NH) and any other known genetic defects. With this guarantee, we provide our customers the opportunity to purchase their choice of cattle with very little risk. DNA samples have been collected on every animal in the sale with any known carrier in the first three generations and tested negative unless otherwise noted.

GAIN TESTING

The summer born bulls were weaned in October of 2023 and yearling weights were taken in May of 2024. All summer born bulls were placed on feed in preparation for the sale.

SUPPLEMENT SHEETS

Supplement sheets will be available on sale day and will include actual scrotal measurements and actual weights.

BIEBER IGENITY

We want to take this opportunity to introduce you to Bieber Igenity, a DNA evaluation from Neogen that will rank your herd on the same basis as data provided by Igenity on Bieber Red Angus bulls. This evaluation will allow you to have your animals tested and ranked against a large data base, and then in turn directly select bulls that can complement your herd. This approach offers a science-based method to directly compare and contrast DNA markers within the bovine population.

We aim to produce bulls that provide the greatest return per dollar invested by staying focused on profit-oriented genetics that reduce management and labor inputs and increase sustainability. This program contributes to that goal by making our bulls and your cowherd speak the same DNA language. Our bulls have been tested on this same platform, giving you the opportunity to make better choices on what bulls will drive your operation in the right direction. We are excited to partner with Neogen on Bieber Igenity, the industry's first commercial cattle, multi-breed genomic selection process that is globally accepted.

Sample collectors and tests can be purchased from Bieber Red Angus at the following prices.

- Blood card: \$1.25
- Tissue Sample Unit (TSU): \$2.70
- DNA tests: \$30.00 per test

For an additional \$4.00, BVD PI testing can be done on TSU samples only. Sire parentage can be determined if Neogen has the sire on file. There is a 4 to 5 week turnaround for testing results. With this program, you will receive a \$10.00 credit per test towards a bull purchase at Bieber Red Angus.

HOW TO IMPLEMENT BIEBER IGENITY

Step 1: Choose 30-50 females in your herd to test in the program. This number allows you to identify the genetic trends in your herd.

Step 2: Order blood cards or a TSU. This can be done directly through Bieber Red Angus or Neogen. Tests will cost \$30.00 per test when ordered through Bieber Red Angus, with a \$10.00 credit per test towards a bull purchase at Bieber Red Angus. Credit must be used within two years of submitting your Bieber Igenity order. Credit is valid for bulls ONLY and can equal only 20% of your total bull purchase.

For example

Spend: \$5,000	Use: \$1,000 Credit
Spend \$10,000	Use: \$2,000 Credit

Step 3: Collect DNA samples

Step 4: Fill out order form from Bieber Red Angus.

Step 5: Send completed order form, check made out to Bieber Red Angus, and your samples to:

Bieber Red Angus
ATTN: Sample Submission
11450 353rd Ave
Leola, SD 57456

After these steps are completed, we will send your samples to Neogen for testing with a turnaround time of 4 to 5 weeks.

BRED HEIFERS

We started offering bred heifers several years ago and people always wonder how we select which ones to sell. The first reason we offer them is for regular cash flow and breeding heifers is something we are good at. We also have pastures that are better for yearlings over pairs. We generally offer any bull bred heifers to help us shorten our calving window and we also offer some AI bred heifers for those who calve earlier.

LOT 1 BIEBER PRIMROSE 104L

Heifer calf due 2/17/2025 sired by ALC GENUINE L30. Part of our program focus is to find some outside bulls that work towards our goals. Identity was one sire that fit in our program. He balances well across the board on traits we feel work best towards profitability. Lot 1 comes from the Primrose cowline with Maximus on top. We really like the Maximus daughters and so do Tate Pieper and Seth Leachman. Tate ended up buying Maximus and using him in the Pieper program. Lot 1 is bred to a young sire we bought from the Anderson program on the Wedel sale this past spring. We would love to keep every mating that might blow the top on ProS, but we know we need to offer top quality females to our buyers every year.

Bull calf due 2/21/2025 sired by either ALC GENUINE L31, ALC GENUINE L30, PIE COMPLETE 374, or STRA SECURITY 3013. DNA testing will be necessary to determine calf sire. Lot 2 comes from the prestigious Adelle cowline and a high ProS sire we bought from the Ludvigson Program, Maddux 0164H. The Adelle line has produced many great herd sires for us and is one we look to for the next big name. She posts growth numbers at the top of the breed and deserves a look on sale day.

Heifer calf due 2/7/2025 sired by PIE COMPLETE 374. We chose High Density as a leading son of Hard Drive and he has not disappointed us. The progeny are easy fleshing and really easy to look at. This cowline has been known for its high growth for more than 10 generations. Lot 5 is bred to another Complete son we purchased from the Pieper program. We expect our females to be very productive and in this package you get 2 for 1 with her heifer calf pregnancy.

5

6

LOT 6 BIEBER PRIMROSE 382L

Heifer calf due 1/29/2025 sired by LSF SHW IDENTITY 3702L. Blue Chip has been pleasing breeders around the world. One report from South Africa described them as cattle with some of the deepest and thickest muscle they had ever seen in the Red Angus breed. This heifer stacks Forefront B281, a great female maker, on the maternal side of the pedigree. With the Primrose cowline, she is going to be a very productive specimen. Lot 6 is bred to a young sire we found at Ludvigson's Herdbuilder sale and is very stylish and great data.

Bull calf due 2/22/2025 sired by ALC GENUINE L31. The Tilly cowline is a famed pedigree in our program and lot 7 is out of a maternal sister to Spartacus A193. This young matron represents the consistency our herd produces day in and day out. The Genuine son she is bred to may be one of the best sons to sell this past year. We are excited about his potential and this is someone's opportunity to be in on the ground level.

BRED COWS

Every year we offer bred cows out of our program. First, every cow in our herd sells when she turns seven years old. Why seven? After doing the math, we believe these females breakeven with a lot of life and fertility left in them, but they've served their purpose in our herd at that age. Second, we offer younger cows that are due later in our calving season in order to keep a tight calving window. These cows are from the heart of our program and deserve your attention if you are looking to step up the genetics in your herd. They often fit another operation's calving season quite well. Finally, we breed a large number of replacement heifers each year because we feel they offer the best genetics we've produced to date and want to utilize that. Inevitably, that means a certain number of cows have to go in order to maintain a reasonable cash flow and stocking rate.

All bred females declared bred when sold are with calf confirmed by arming the cows the week prior to the sale. We guarantee bred females to be pregnant at the time of sale unless announced otherwise. The seller makes no guarantee that a bred female will deliver a calf or carry a pregnancy to full term. Any request for refund on bred females must be made within one month of receiving the female and they must be returned to Bieber Red Angus in Leola, SD. Any consideration after the one month time period will be in the form of a credit towards a future purchase.

46

LOT 46 BIEBER PRIMROSE 204E

Heifer calf due 2/23/2025 sired by LARR PAYCHECK 0728. Primrose 204E is backed up by 5 generations of donors on the bottom side of her pedigree. She currently has 12 embryo transfer calves to her credit and a daughter in our ET program. Lot 46 is the dam of Paycheck K102, currently leased to Alta Genetics and in there sire lineup. Her natural calves have been outstanding with the last one going to the Langdon's of NC and one on test that is likely the best Stockmarket son we have produced. She is definitely a donor worthy of any program that wants to move forward.

Heifer calf due 2/22/2025 sired by NIO AMERICAN FREEDOM 1005. Dateline 525F has had a prolific history as a donor in our program. She's produced several sons that went to the herds of Ammanns, Kerry Cooksley, Sierra Bonita, Mark Gross, and Northern Lites. Her son, Dividend H517, is one of Stockmarket's leading sons that has been used AI in our program and at Northern Lites. She has a daughter who has been productive in our ET program. Lot 52 is easy to get along with and will be excellent in a new program helping them forge a leading path.

AGE-ADVANTAGED BULLS

In my original quest to get out of farming I convinced my father Ron that if we calved a group of cows in May-June, we could offer age-advantaged bulls for those customers that wanted them. One of the major reasons we did this was because every year or two we would have a natural service sire that didn't do his job resulting in open or late cows. We didn't want to get rid of these cows but calving in April was tough because of the mud. We decided to breed them to start in May and have been calving cows at this time since 2002. This season syncs with our grazing cycle and augments our current Spring calving system. We have also found that producers in many areas of the country like these age-advantaged bulls for their operations. Because of that, we have added ET calves to the group to increase the volume and quality.

It is a natural impulse for us to throw up our hands in frustration when challenged to make sense of waves of new information. Many say, "I'm going to pick the cattle that look the part to me and to hell with all the numbers!" Besides, it seems easy for a lot of people in our business to believe the numbers are a crock - a contrivance of an 'in group' to manipulate the process to their advantage. Our view is that the EPDs have been invaluable and are essential to profitable cattle selection.

The Neogen products produce data that verifies parentage and predicts the breeding value of an individual animal in different traits. International Genetic Solution (IGS) then processes that genomic data and puts it into a usable format by updating and reporting genomically-enhanced EPDs (GE-EPDs) weekly.

The value of the genomic information is in improving the accuracy of the EPDs. The improved accuracy, according to the statisticians, can be expressed in the number of progeny records that would be required to produce equally valid phenotypically derived EPD values. GGP and that genomic data contributes an equivalent amount of information that would be derived from 21 offspring of a given bull.

To sum up, let us revisit the data versus information idea. Investigation of the genome and accumulation of data to predict outcomes will continue across the entire spectrum of biology. No one can stop it. There is nothing fundamentally wrong or threatening with that process. At the same time, we believe that the interpretation of such data in our business is less than ideal, its impact sometimes exaggerated. In other words, the translation of data to usable information, actionable intelligence, is a work in progress. We believe that process will evolve and improve, particularly as more data accumulates.

Nothing in this world is perfect, including the tools we have to predict outcomes in the vast, magnificent world of biology. But EPDs are still, and will remain, the selection tools to use in choosing bulls to buy. They account for all sources of information on the individual, including pedigree, with collateral relatives' performance, individual performance, and genomic testing. They are the best tools we have and have most definitely worked for us.

LOT 211 BIEBER JUMPSTART L433

THIS LOT IS A STUD! We think it will be tough to find any bull with this much mass and growth. His thickness is second to none. His cowline is not going to stop that either. The Dateline cowline has been known for its growth but this stout bull takes it to a whole new level. Lot 211's data puts him top 1% for both WW and YW but we think his progeny could drive him to the top 10th of 1%. This is a powerhouse bull and likely the highest growth bull to sell this year.

Flashdrive's progeny have been doing a great many things right and this son will not disappoint. He has a lot of growth, and although his BW is high, we expect that you will never pull a normal presentation calf on mature cows. Lot 212 will push your pay weights higher.

COMMERCIAL HEIFERS

Rick Prentice Farms of Wessington, SD

42 Head of Commercial Heifer Lots

Rick Prentice (605) 254-2916

Rick purchased the majority of these heifers from longtime Bieber customers Kevin and Tammy Heupel of Leola, SD, and Kent Jungeman of Wolsey, SD. The remainder are home-raised from Rick's program. Both the Heupel's and the Jungeman's have been buying calving easy maternal sires from Bieber Red Angus and we expect these heifers to be an excellent representation of both our and their programs. Rick has been buying bulls from Bieber Red Angus since 2005. The heifers were AI bred on June 13 to Bieber Jumpstart J137, with a calf due date of March 19. Synchronized heifers almost always calve for about 2 weeks around the due date.

These heifers will be ultrasounded for calving date, sorted into uniform calving groups, and sold in sets of five or more. Five heifers will be tagged with the first lot and consecutively with every five after that. They will sell in lot tag order. Each group will be tagged in a series, so the winning bidder will have the right to buy the first five and as many as they want within that lot in increments of five at the sale price. Video will be available through our website prior to the sale.

Rick Prentice Family

COMMERCIAL HEIFERS

Rick and Shelly Ammann of Wilmot, SD

45 Head of Commercial Heifer Lots

Rick Ammann (605) 949-1697

These are home raised heifers that have been AI bred on June 10 and 11 to Bieber CL Atomic C218, Bieber Paycheck K102, and LSF SRR Exactly 1144J. They were then turned out with Bieber Identity L115, who is out of a Forefront daughter, and Bieber Identity L233, who comes from a cow family that produced Forefront. The bulls were in from June 13 to July 18. The heifers will calve for 45 days starting March 5. The steer calf mates to these heifers have topped the Superior Sale in Sheridan, WY for several years and have averaged around 615 pounds with delivery the first week of November, or 715 pounds after being backgrounded for 50 days for delivery the second week in December. The Ammann's have been using Bieber Red Angus bulls since 1991 and Red Angus bulls since 1978. They received GridMaster awards in 2018 and 2019.

These heifers will be ultrasounded for calving date, sorted into uniform calving groups, and sold in sets of five or more. Five heifers will be tagged with the first lot and consecutively with every five after that. They will sell in lot tag order. Each group will be tagged in a series, so the winning bidder will have the right to buy the first five and as many as they want within that lot in increments of five at the sale price. Video will be available through our website prior to the sale.

Rick and Shelly Ammann

REFERENCE SIRES

This group of sires displays the foundation of our program and provides the elite Red Angus genetics that our cattle are famous for. We list the sires that have the most progeny in the sale, as well as those that have been mated to the most females in this offering.

REFERENCE SIRES

BIEBER JUMPSTART J137

Jumpstart was the single most sought-after Red Angus bull in the 2022 sale season, commanding \$185,000 to Select Sires and a number of other partners in our Spring Performance Bull Sale. This bull combines elite data with exceptional phenotype. Very few sires offer as much power and muscle shape as he does, yet still rank among the best in the breed for calving ease. Not only is he a true 'specimen' in terms of his physical appearance, but he also has a number set that's projected to offer improvement in nearly every trait. This is a great opportunity at some of the first bulls out of such an elite sire. Make sure to keep an eye on all of the lots out of him.

BIEBER FLASHDRIVE G266

Flashdrive's first progeny sold last year and have been exciting. They have the kind of growth that will add pounds and stack the carcass. We didn't get a great picture of him, but he was a soggy, thick sire who was easy fleshing and an ideal frame. Flashdrive's sons offer a punch of growth and carcass that we feel offers a lot for the breed.

PAYCHECK SON FROM 2024 PERFORMANCE BULL SALE

LARR PAYCHECK 0728

Paycheck was a bull we identified on the Lundgren Angus Sale offering as a top individual. He exhibited a lot of muscle and was a leader for marbling. His progeny have lots of shape and offer the frame to curb mature size if desired, and we think they compliment our offering well. His growth is in the top 1% with outstanding carcass.

BIEBER CL ENERGIZE F121

Energize has been attracting attention the past few years. He leads the sire lineup at ABS and is likely to be a leasing sire in the breed. He was one of the most talked about sires - red or black - at Origen in MT several summers ago. Energize blends an outstanding growth curve with outstanding GridMaster values. His progeny have continued to impress us every step of the way. His sire Atomic's daughters have been impressive and we have no doubt with the Adelle cowline in his pedigree the Energize daughters will continue to impress. He has a lot of body and dimension and has a bold spring of rib and great foot structure. His dam Adelle 575D sold to Mathias Ranch and is now being flushed extensively. We expect great things from this sire and his recent progeny are just the front end of a lot of great cattle to come.

REFERENCE SIRES

BIEBER CL STOCKMARKET E119

Stockmarket has hit the breed with a pedigree that provides an opportunity to make multi-trait improvement and add phenotype. He offers calving ease with great performance and excellent carcass. We've really liked what we see in the phenotype of the daughters. They have a lot of brood cow characteristics with good udders. His progeny are long bodied with a lot of rib and smooth hoof shape. Stockmarket was first in registrations at the Red Angus Association last year and was the first Red Angus bull to break the top 10 of beef bulls at Select Sires - and he did it two years in a row. This sire and his progeny do a lot right! Look for the Stockmarket pedigree to be in about every sale you go to this fall. His dam was one of the best cows to walk our place.

BIEBER CL ATOMIC C218

Atomic is a proven sire and a phenomenal producer of females and maternal traits, and he does so with excellent data across the board. Many of his daughters end up producing towards the top of the herd. We expect that his pedigree will continue to have an impact for years to come as we see his progeny become popular herd sires in their own right. Ron and Lois have a sign hanging in their home with the old saying, "Cows may come and cows may go, but the Bull goes on forever." Atomic is the perfect example of the longevity a great sire can have in the breed.

This lot offers excellent growth to any operation.

1. Lot Number - This is the lot number of the animal. Cattle will have a white tag that will correspond to that number. Generally cattle will sell in lot number order.

2. Name - This is the registered name of the animal. Generally we name bulls after the sire and females after the dam.

3. Born - This is the birth date of the animal.

4. Reg - This is the Registration number of the animal. All Red Angus animals can be looked up on the Red Angus website by going to the animal search page and using this registration number.

5. Breed - This area has the breed composition and category as determined by the Red Angus Association of America. Breed Codes are:

- AR = Red Angus
- SM = Simmental
- XX = Unknown

The Unknown cattle are largely cattle we weren't able to prove parentage on in the Durham herd. The unknown breed is either Simmental or Red Angus in the Durham foundation cattle.

6. Category - This is the category as defined by the Red Angus Association. Categories are:

- 1A = 100% Red Angus with no disqualifying features.
- 1B = 87% to 99.9% Red Angus with no disqualifying features.
- II = Equal to or greater than 87% up to and including 100% Angus blood content having one or more disqualifying features. Disqualifying Features include scurs or horns, ineligible white, black pigment, progeny of multiple sire groups, and missing birth date, or weaning weight and date.
- III = Less than 87% Angus blood content.

7. Sire - Sire of the animal.

8. Paternal Grand Sire - Sire of the Sire.

9. Paternal Grand Dam - Dam of the Sire.

10. Dam - Dam of the animal.

11. Maternal Grand Sire - Sire of the Dam.

12. Maternal Grand Dam - Dam of the Dam.

13. MPPA - Most Probable Producing Ability. An estimate of a cow's future productivity for a trait (such as progeny weaning weight ratio) based on her past productivity. For example, a cow's MPPA for weaning ratio is calculated from the cow's average progeny weaning ratio, the number of her progeny with weaning record, and the repeatability of weaning weight.

14. AOD - Age of Dam at the time of weaning.

15. ADG - Average Daily Gain. Measurement of daily body weight change over a specified period of time of an animal on a feed test.

16. ADG Ratio - Average Daily Gain Ratio. The ratio of the animal within its contemporary group. ET and Twins will be marked with a TW and ET. These animals have no contemporary group.

17. WDA - Weight Per Day of Age. Weight of an individual divided by days of age.

18. WDA Ratio - Weight Per Day of Age Ratio. Weight of an individual divided by days of age. ET and Twins will be marked with a TW and ET. These animals have no contemporary group.

19. AScr - Adjusted Scrotal Circumference. A measure of testes size obtained by measuring the distance around the testicles in the scrotum with a circular tape. Related to semen-producing capacity and is adjusted to Yearling age. Actual Scrotal Measurement are provided on a supplement sheet at the sale.

20. CE - Calving Ease Score. This is our recommendation for CE based upon the data and the pedigree. *** = Use on heifers; expect less calving difficulty. ** = Use on growthy heifers and cows. Expect moderate calving difficulty on heifers and very little on cows. * = Use on cows; expect calving difficulty on heifers and some to very little on cows.

21. Growth Sc. - Growth Score. This is our recommendation for growth based upon the data and the pedigree. • G6 = Maximum growth rating. • G5 = High growth rating. • G4 = Moderately high growth rating. • G3 = Average growth rating. • G2 = Below average growth rating. • G1 = Low growth rating.

22. EPD Data Generated - The date this EPD data was pulled from the Red Angus Association website.

23. EPD - Expected Progeny Difference. The difference in expected performance of future progeny of an individual, compared with expected performance of future progeny of an individual of average genetic merit in the base time frame for the genetic evaluation.

EPDs are estimated from phenotypic merit of an individual and all of its relatives and are estimates of one-half the breeding values. EPDs are generally reported in units of measurement for the trait (e.g. lb., in., etc.).

acc - Accuracy. A measure of the reliability of an EPD. Accuracy values are reported as decimal numbers between zero and one. Values closer to one indicate larger amounts of available information and greater certainty that a bull's EPDs will not change significantly as more progeny information becomes available. Bieber Red Angus reports the accuracy values for sires since they have high accuracies. EPDs are a more reliable estimate of performance than weight, ratios or other measurements.

24. Rank - This is the percentage rank of the EPD within the type of animal. Rank groups include Proven and Opportunity Sires, Active Dams, and Non Parent under Two Years of Age.

25. Wts - Weight. The weight for that trait in that column adjusted to a constant days of age by Red Angus Association and Beef Improvement standards.

26. Ratio - The ratio for that trait in that column within its contemporary group. ET and Twins will be marked with a

TW and ET and have no contemporary group.

27. CED - Calving Ease Direct. Predicts the probability of calves being born unassisted out of two-year-old heifers. Producers want live calves born unassisted. Selecting on actual birth weight is flawed; it is influenced by non-genetic factors such as nutrition and weather (ambient temperature). While BW EPD removes these non-genetic factors, Red Angus CED EPD is the best predictor of calving ease. The CED EPD includes variation in BW plus other influential genetic factors such as gestation length, calf shape, etc.

28. Birth Weight EPD - Predicts the difference, in pounds, for birth weight, and is also used in the calculation of the Calving Ease Direct (CED) EPD.

29. BW - Birth Weight. The actual weight in pounds at birth.

30. Weaning Weight EPD - Predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age). This is an indicator of growth from birth to weaning.

31. WW - Weaning Weight. The 205 adjusted weight. This is an indicator of growth up to weaning.

32. Yearling Weight EPD - Predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age). This is an indicator of growth from birth to yearling.

33. YW - Yearling Weight. The 365 adjusted weight. This is a measure of growth from birth to yearling.

34. Milk EPD - Predicts the difference in maternal production of an individual animal's daughters as expressed by the weaning weight of their calves.

35. ME EPD - Maintenance Energy. Predicts the difference in daughters' maintenance energy requirements and is expressed in Mcal/Month. Recognizing that 70% of cowherd feed costs are burned up in maintaining weight and condition, Red Angus' ME EPD allows for the selection of bulls whose daughters will require less feed; thus, reducing cowherd expenses. Includes selection pressure for ME EPD to ensure feed costs don't get out of line when selection is made for greater performance and production. At Bieber Red Angus we collect a cow weight at weaning time to ensure greater accuracy of this EPD.

36. HPG EPD - Heifer Pregnancy. Predicts the probability of heifers conceiving to calve at two years of age. Many breeds offer genetic predictions of yearling bull scrotal circumference as an indicator of age of puberty. While puberty is a prerequisite, many factors influence pregnancy rate. Red Angus' HPG EPD offers a tool which selects for what is economically relevant to ranchers - pregnant heifers. At Bieber Red Angus we submit all heifer breeding data to ensure the accuracy of this EPD.

37. CEM EPD - Calving Ease Maternal. Predicts the probability of a given animal's daughters calving unassisted at two years of age. Replacement heifers should be able to calve on their own. Red Angus' CEM EPD offers the industry's most reliable prediction to address that concern.

It includes not only the predisposition for a female to calve unassisted, but also her contribution to her calf's traits that make it more likely to be born unassisted.

38. STAY EPD - Stayability. Predicts the probability of a bull's daughters remaining productive until at least six years of age. Why six? That's how long it takes a female to breakeven given all the expenses of development.

39. MARB EPD - Marbling. Predicts differences for carcass marbling score as expressed in marbling score units. Higher marbling scores are positively correlated with higher carcass quality grades.

40. REA EPD - Rib Eye Area. Predicts differences of carcass Rib Eye Area between the 12th and 13th rib. Increased Rib Eye Area has a beneficial effect on Yield Grade which also includes Carcass Weight and Fat Thickness.

41. FAT EPD - 12th Rib Fat Thickness. Predicts differences for carcass fat depth over the 12th rib, as expressed in inches. Increases in fat thickness have a detrimental effect on Yield Grade. Fat thickness measured in young seedstock may be an indicator of fleshing ability.

42. HerdBuilder Index - As the name indicates, implementation of the HerdBuilder Index will assist producers in building profitable herds. The HerdBuilder Index is built using the following production scenario:

- Red Angus bulls mated to cows and heifers (resulting progeny ¾ Red Angus, ¼ Simmental).
- Replacement heifers retained from within the herd.
- All remaining progeny sold on a quality-based carcass grid.

43. GridMaster Index - While Red Angus has traditionally been known as a superior maternal breed, those who have retained ownership in Red Angus calves know of their potential to excel in the feedyard and ultimately hang a premium carcass. The GridMaster Index is built using the following production scenario:

- Red Angus bulls mated to cows (resulting progeny ¾ Red Angus, ¼ Simmental)
- All progeny sold on a quality-based carcass grid

44. ProS Index - Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and include on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

45. Top Dollar - A third party evaluation on growth and carcass traits of an animal. Lots with this logo rank in the top 25% of the breed for growth and carcass EPD traits.

46. DNA - The DNA test submitted on this animal for parentage and genomically enhanced EPDs.

47. Footnote - This is information we would like to point out about the lot. It may contain breeding information on bred cattle.

Bieber Igenity[®]

One Test- 4 Valuable Uses

- Replacement Selection** -Receive clear, actionable scores on 17 maternal, performance and carcass traits. Keep the heifers that will add profit to your operation.
- Seedstock Decisions** -Easily characterize the strengths and weaknesses of your herd to better match bull and female purchases to your specific needs.
- Determine Parentage** -Determine which bulls are doing the best job. Not only which bulls are breeding more cows, but also the quality of their calves.
- Value-Added Marketing** -Use the results to verify the genetic value of your calves to buyers or to make retained ownership and marketing decisions for yourself.

LEGAL TERMS AND CONDITIONS

The Red Angus Association Terms and Conditions will apply if the terms and conditions printed here are not applicable.

BIDDING DISPUTES: The auctioneer in charge will settle any disputes as to bids. His decision on such matters shall be final.

TERMS: The terms of the sale are cash; the right of property shall not pass until after settlement is made. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the ranch.

RETAINED INTEREST: We are retaining 1/2 interest in all bulls in the sale. We are selling the remaining 1/2 interest, full possession, and full salvage value on these bulls. This option gives Bieber Red Angus Ranch the option to collect, use and market semen from the bull, and does not restrict the purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Bieber Red Angus Ranch, at the buyer's convenience. Also at the time of purchase, the highest bidder on a retained interest bull may elect to purchase exclusive semen rights for 100% of the purchase price in addition to the purchased price on retained bulls. If a buyer elects to purchase exclusive semen rights, Bieber Red Angus Ranch's interest then becomes in herd use only. Bieber Red Angus Ranch retains all rights to use the bull within their herd.

SEMEN RIGHTS: Buyers receive semen rights proportional to the interest purchased. If you purchase a 1/2 interest, then you are entitled to 1/2 of the semen collections at cost, provided that you indicate you want semen prior to collection. We intend to collect some of the bulls in the sale and sample them in our herd. We will cooperate with the buyer in collection of the bull. We prefer to collect most bulls after the first season of use, and we will contact the buyer when we intend to collect the bull at a time convenient for the buyer.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. Animals will be fed, watered and cared for at the purchaser's risk for a reasonable time.

CERTIFICATE OF REGISTRY: A certificate of registry and transfer will be furnished for each animal sold as a registered animal, after settlement has been made.

HEALTH: All cattle will have official health certificates and will sell guaranteed export to Canada. Canadian health certificates will be charged at cost on animals selling under \$4000.

ANNOUNCEMENTS: Changes of information contained in this catalog relating to the animals offered for the sale will be announced from the auction block and such announcements shall take precedence. Errors discovered in the catalog will be corrected by announcements at sale time, and such corrections will take precedence over the printed matter in this catalog.

BREEDER'S GUARANTEE: 1. All animals are guaranteed breeders, with the exception of: a) calves under twelve months of age; b) animals shown by Purchaser after sale (in cases of animals shown after purchase, the breeding guarantee, if any, shall be such as agreed upon between Seller and Buyer) c) any open heifer that has been flushed for embryo transfer; or d) gross negligence or willful misconduct on the part of the Purchaser. 2. Bulls are guaranteed breeders if not allowed to run with the herd until at least 14 months of age. Any bull which either: a) settles 1/3 or more of the healthy cows he serves; b) is the sire of 20 or more animals; or c) settles cows by natural service and passes a fertility test made by a competent veterinarian during any 6 month period of trial (provided for in paragraph 2 of the section of these sale terms and conditions entitled "Options and Privileges of Return or Adjustment") shall be considered a breeder.

Any guarantee with respect to the ability to freeze semen shall be by separate agreement between Buyer and Seller.

All guarantees are limited to the amount of the purchase price.

Open females have not been served and are so guaranteed.

IDENTIFICATION: Each animal carries an EID tag for identification. That EID corresponds with the ID of the animal and is recorded with the Red Angus Association. Tag numbers on the cattle correspond with lot numbers in this catalog. Purchaser agrees to use full name of animal in advertising and on stall cards at shows.

OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

1. All claims for adjustment or refund must be made in writing either within six months of the sale date or no later than six months after the animal reaches 18 months of age, with the exception of claims involving defects or parentage.

2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm of the Seller if in good condition and complying with the health requirements of the Seller's state. The Seller shall be entitled to six months' trial following the return of the animal in which to prove the animal is a breeder. The Seller shall, at the option of the Buyer, replace the animal with another of equal value or grant the Buyer a credit for use on any products marketed by the Seller. Such credit of the full purchase price shall in any case be deemed full satisfaction and settlement. Any expense incurred for transporting an animal claimed to be a non-breeder shall be the responsibility of the Purchaser, except that the Seller shall be responsible for the transportation costs in excess of the distance between the Purchaser's farm and the location where the sale took place. If the Seller proves the animal is a breeder, it shall be the obligation of the Purchaser to take delivery of the animal and pay all expense incurred for transportation.

3. If a female sold as "safe in calf" proves not to be in calf, the Purchaser may receive service from the bull previously used, if available, or if the bull is not available, the Seller shall be obligated to make a satisfactory adjustment on the purchase price upon return of the animal to the farm of the Seller. Any adjustment provided for herein shall absolve the Seller from further liability, except in case such female proves to be a non-breeder. If a female represented as "safe in calf" at time of sale to a certain bull proves to have been bred to a different bull, the Seller shall be obligated to take a satisfactory adjustment on the purchase price upon return of the animal to the farm of the Seller (adjustments shall not be considered to a breeding fee or an allocation of the purchase price to any unborn calf). Any expenses incurred for transportation shall be the responsibility of the Purchaser, except that the Seller shall be responsible for the transportation costs in excess to the distance between the Purchaser's farm and the location where the sale took place.

4. If a female sold as "served" proves not to be in calf, or if a female sold as "pasture-bred" proves not to be in calf, the Seller only guarantees such female to the breeder.

5. If a female sold as "open" proves to be with calf, the Purchaser may return the animal to the farm of the Seller prior to calving for a credit of the full purchase price or for another animal of equal value, whichever is acceptable to the Purchaser. It shall be the obligation of the Seller to bear any expense incurred for transportation.

LIABILITY: Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise, for damages of any kind.

CONTRACT: The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

IMPLIED WARRANTY: Except for those stated in the terms and conditions, there are no warranties, either expressed or implied, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in terms and conditions are in lieu of all other warranties, either expressed or implied, and the remedies proved therein shall be the sole and exclusive remedy of the buyer, or any part claiming through buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

WE LOOK FORWARD TO SEEING YOU THIS SPRING FOR OUR...

Bieber Fever

PERFORMANCE YEARLING BULL SALE

THURSDAY, MARCH 6, 2025

ONLINE OR IN PERSON AT THE RANCH NEAR LEOLA, SD
