## SALE ORDER

Sale order will be catalog order. Any variations from this order will be announced prior to the sale.

## EPD INFORMATION

In this catalog we have included data on the core performance traits. With the ever-expanding database predictions on more traits than ever before, we have had to narrow our EPD selection to these core items. If you would like additional information on any traits not listed, please let us know. The EPDs provided are current as of the date listed under *EPD DATA GENERATED*. Real time data can be found on [www.RedAngus.org](http://www.RedAngus.org).

## DELIVERY

Please review our delivery policy on Page 4 for cost and other info.

## SCHEDULE OF EVENTS

### WEDNESDAY, MARCH 4

8:00 am Sale cattle available for viewing all day  
9:00 am Coffee and supplement sheets available in sale barn

### THURSDAY, MARCH 5

8:00 am Sale cattle available for viewing  
9:00 am Coffee and supplement sheets available in sale barn  
11:00 am Lunch will be served in sale barn  
**1:00 pm Sale time**  
5:00 pm Dinner served following the sale

## SALE LOCATION

### Bieber Red Angus Ranch, 11450 353rd Ave, Leola, SD 57456

The ranch is located nine miles west of Leola on Highway 10. When you see the Bieber Red Angus Ranch sign, turn north and go 1/2 mile.

## COOPERATORS

To provide a better selection of cattle, we have partnered with the following people with herds that align with our own through genetics and management. We have included contact information for each cooperator as they represent the program and can help with your selection.

Gene Rouse (ROU)..... (515) 520-7707  
Dan Bormann (ROU)..... (515) 520-7707

Schlesser Farms (SCH)..... (712) 541-0280 or (319) 981-0085

## ONLINE BIDDING

The sale will be broadcast live over the internet through DVAuction. To bid from your computer during the sale, complete this simple two step process:

- Visit [www.dvauction.com](http://www.dvauction.com) or call (402) 474-5557. Register by entering a User Name and Password. Enter your personal information on the next screen.
- Click "Apply for Bidding." Select the Bieber Red Angus Sale from the list of sales and click "Apply." Complete the process by filling out the Banking and Lending information requested.

DVAuction will contact you to let you know that you have been approved to bid and buy at the sale. We will assign you a buyer number after you have made a purchase on the sale through DVAuction. After the sale, Bieber Red Angus will contact you to make arrangements for payment and delivery of your purchases.

**Please Note:** You must have high speed internet access (DSL, T-1, or Broadband) to bid during the sale. Any questions, please contact DVAuction at (402) 474-5557 or [support@dvauction.com](mailto:support@dvauction.com). We recommend that you register at least one day before the sale for online bidding.

# CATALOG LETTER

## *Welcome* TO OUR 2026 PERFORMANCE BULL SALE!

The first Thursday of March is a tradition for all of us at Bieber Red Angus. This year, on Thursday, March 5, 2026, we invite you to join us for our 51st Annual Production Sale.

Last year's 50th sale was a great milestone for our family and our program. It was also a reminder of what truly built Bieber Red Angus - trusted relationships, shared values, and customers who care about making cattle better. We don't take that loyalty for granted, and we're grateful for every handshake, phone call, and year of business that has helped shape where we are today.

The 2026 offering is a strong representation of the direction we're heading and the fundamentals we refuse to compromise. You'll find a deep set of registered Red Angus bulls bred for performance, maternal strength, efficiency, and longevity, with the kind of structure and functionality that holds up in real-world environments.

At Bieber Red Angus, we believe the best cattle are built where data and phenotype agree. We put tremendous value in genomically enhanced EPDs as a reliable selection tool, while never losing sight of the feet, legs, body type, and overall balance that make cattle durable and useful. Our goal remains simple: breed cattle that work in our system and help our customers be more profitable in theirs.

We invite you to visit the ranch and look through the bulls at your convenience. On sale day, come early, enjoy good conversation, and take the time to evaluate the offering. If you can't be here in person, we will again offer live online bidding through DVAuction so everyone has the opportunity to participate.

If you have any questions, need assistance, or would like to schedule a visit before the sale, please reach out to the Bieber Red Angus team listed in the catalog. We'd be glad to visit with you, build a tailored bull list, and help match genetics to the needs of your program.

Thank you for your trust in Bieber Red Angus. We look forward to seeing you on Thursday, March 5, 2026, and continuing to move the breed and your herd forward.

CRAIG J BIEBER

# MEET THE TEAM

## CRAIG AND PEGGY BIEBER

Craig and Peggy are the owners and operators of Bieber Red Angus. As CEO, Craig oversees the operation of the ranch and coordinates the selling of more than 550 Red Angus bulls each year. Peggy is his partner and the full-time office manager at the ranch. She manages all bookkeeping, cattle record entry, and sale clerking. Together, they work diligently to market exceptional cattle to seedstock and commercial cattlemen alike.

## JAKE AND KRISTIN HARMS

Jake and Kristin are Craig and Peggy's son-in-law and daughter and the next generation on the operation. Jake helps manage the day to day operations of the ranch as well as cattle sales with Craig. Kristin handles the marketing and works in the office with Peggy. Both are committed to the future of the operation.

## CRAIG HOWARD

Craig is the cow boss at Bieber Red Angus. He manages the daily operations of the ranch including breeding, calving, overall cattle care, and maintenance. Craig knows the Bieber herd as well as anyone, having been with the ranch for almost 20 years, and is committed to the program he has helped build over his tenure.

## JACKSON SIMONDS

Jackson is a herdsman. He is our all-around guy that focuses on feeding, maintenance, cattle care, cattle handling, and calving, among his other ranch duties. He has become a veteran on the team and has really honed his skills as an exceptional ranch hand.

## CORY ASH

Cory is a mechanical and feeding specialist. He focuses on feeding and maintaining all of our farm and ranch equipment, among his other ranch duties. He is a hard worker, pays close attention to detail, and is an excellent addition to our ranch team.

## LOIS BIEBER

Lois is a co-founder of Bieber Red Angus. She and Ron established the Red Angus herd in 1968 with proven cows from leading breeders. Lois resides in Aberdeen but continues to help with the sale and visits often!

# DELIVERY POLICY

We have outlined our delivery arrangements and pricing below and we encourage each of you to review the details. Please stop by our check out counter prior to leaving the sale to coordinate delivery plans on your animals. If you are not onsite on sale day, Craig will be in touch with you within a week of the sale to coordinate the delivery of your purchases. We appreciate your patience and assistance when organizing delivery.

## DELIVERY PRICING

As always, we will continue to offer free delivery to **CENTRAL POINTS** in South Dakota and North Dakota. For all other states, delivery will be charged to **CENTRAL POINTS** per head based on the pricing outlined on the map below. Pricing will be charged based on your physical address. Delivery charges will be added to each invoice at check out, unless you plan to load out within 7 days of the sale.

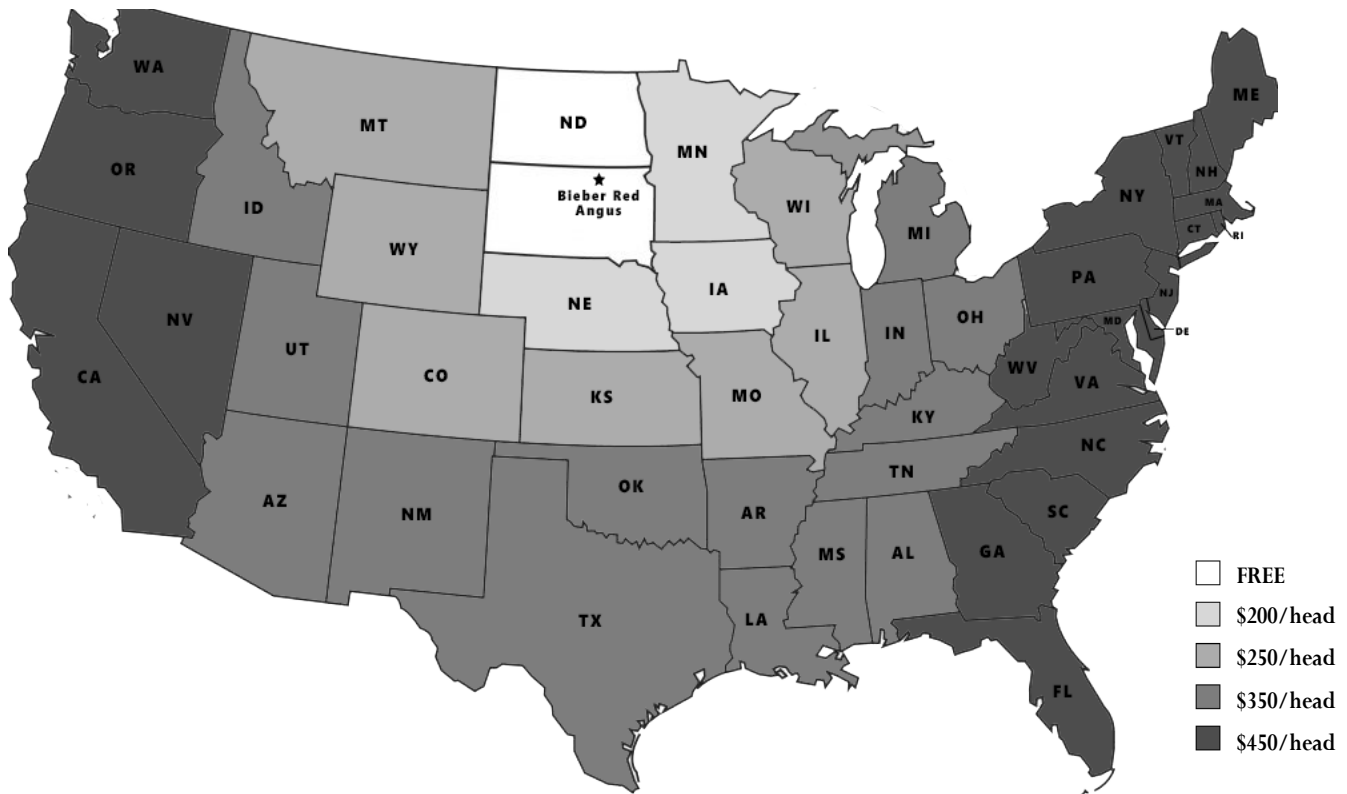

## CENTRAL POINTS

All deliveries will be organized to **CENTRAL POINTS** within the state. Delivery will NOT be organized to your home or ranch. Loads are delivered by semi truck and require drop off points along their route with a loading chute and location to house livestock. You are expected to meet the semi truck driver at the central drop-off point as communicated by them. Central points for delivery include auction barns, vet clinics, and other locations determined by the semi truck driver at the time of delivery. Pricing to these central points will be charged to you based on your physical address. The driver will be given your contact information and will communicate with you regarding the drop off time and location.

## FEEDING ARRANGEMENTS

If you are not ready to receive your animals when we plan to deliver to your area, feeding arrangements are available for a charge of \$3.50 per day per animal. Please coordinate these feeding arrangements after the sale.

We ask for your cooperation in arranging dates and the pick up of your cattle at central delivery points within your state. This will keep the cattle from being on the semi truck longer than necessary and help to get your animals to you with the least possible stress and in the best possible condition. We appreciate your understanding of our delivery policy and look forward to working with you on the delivery of your cattle. Please let us know if you have any questions!

# SALE TERMS

## HEALTH

Ashley Vet Clinic will be available on sale day. All cattle are on a complete vaccination program supervised by Ashley Vet Clinic.

In the past bulls have been tested for persistent BVD carriers and all tests were negative for a number of years. We have chosen not to test the bulls this year since no positives have been found in over 10 years. We have tested our replacement heifers for BVD since 2014 as part of our surveillance program and found no positive BVD carriers. Bieber Red Angus participates in the Beef Quality Assurance (BQA) program. Heifer calves have been Bangs vaccinated. We participated in a Johnes testing program for 10 years with no confirmed positives. We no longer test for Johnes disease but continue to diligently watch for any suspicious cases and test as necessary.

## BREEDING SOUNDNESS EVALUATION

Breeding soundness screenings will be performed in February before the sale to find serious defects in deficiency that will lead to breeding problems. We fully guarantee that these bulls will pass the complete breeding soundness evaluation before the breeding season in 2026 if the bulls are managed properly. Part of being maintained properly means being on a plan of nutrition where bulls maintain or gain weight. The bulls will be weighed the week prior to the sale when the breeding soundness evaluation is done. We recommend that all bulls be tested 4 to 6 weeks prior to your breeding season. Our guarantee will require that the bull weigh the same or more than when we did the breeding soundness evaluation in February 2026. We ask for your understanding if a bull does not pass. Sometimes bulls that have passed the screening do not pass later for various reasons. We will do our best to make sure you are satisfied. Keep in mind that the development of any bull is inhibited by inadequate nutrition. If you have any questions regarding breeding soundness screening or evaluations, feel free to call Craig, Dr. Dean Christensen or Dr. Emily Foxx at the Ashley Vet Clinic

## RETAINED INTEREST

We are retaining 1/2 interest in all bulls in the sale. We are selling the remaining 1/2 interest, full possession, and full salvage value. This option gives Bieber Red Angus Ranch the option to collect, use and market semen from the bull and does not restrict the purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Bieber Red Angus Ranch, at the buyer's convenience. Also at the time of purchase, the highest bidder on a retained interest bull may elect to purchase exclusive semen rights for 100% of the purchase price in addition to the purchased price on retained bulls. If a buyer elects to purchase exclusive semen rights, Bieber Red Angus Ranch's interest then becomes in herd use only, but Bieber Red Angus Ranch retains all rights to use the bull within their herd.

## BIRTH WEIGHTS/CALVING EASE

We score for calving ease with our three star (\*) scoring system. Three stars (\*\*\*) indicates that a particular bull can be used on heifers under standard conditions with little or no calving difficulty. Two stars (\*\*) indicates that a particular bull should be used on growthy heifers or cows under standard conditions with little or no difficulty. One star (\*) indicates that a particular bull should be used on cows under standard conditions with little or no difficulty. This recommendation is a system we use to help our customers with calving ease selections.

Birth weights are highly affected by environmental factors. Research has indicated that the inclusion of corn in cow diets will increase BW. Also contributing to higher BW were cold temperatures. The University of Nebraska conducted a three-year study to research and evaluate effects of high and low temperatures during winter months on calves out of 384 two-year-old heifers. Average BW increased by 11 lbs. when temperatures were colder. The results agree with other studies comparing calves born in the southern US to calves born in the northern US. Weather plays an important role in BW and calving difficulty. We have adjusted the calving ease scores accordingly, taking into consideration what the calf ratioed on BW, pedigree, CE EPD, BW EPD and Genomic data.

# SALE TERMS

## WEIGHTS

Birth weights, weaning weights, yearling weights, and all other measurements are taken at appropriate times to produce sound and accurate comparisons within contemporary groups. We group our Red Angus calves based on the age of our cows. Calves out of two-year-old dams, three-year-old dams, and the main cowherd are all separate management groups and therefore are separate contemporary groups. Embryo transplant calves are contemporaried in the groups they are weaned with.

## INTERNET AND ABSENTEE BIDDING

We would prefer for you to be in attendance on sale day. Realistically, we know that there will be scheduling conflicts and distance limitations. In these instances, we can arrange an individual to handle your bid over the phone so you can participate in the sale. Please call the office prior to the sale and register as a prospective buyer. We need to warn you of complications we have experienced with phone bidding including the volume of the phone and the rapid pace at which our sale moves. For internet bidding information, see the DVAuction section.

If you are unable to attend and you feel comfortable doing so, you also have the option to leave your bids with the Bieber crew, Auctioneer, or publication representatives. We handle many sight unseen bids and have very satisfied customers who feel confident in using this service. We prefer to have plenty of time to discuss your needs over the phone prior to sale day so that we may select the cattle that best fit your specifications. We buy those animals just like you were sitting ringside with us. We also guarantee the cattle and if they don't meet your expectations, you can return them. If possible, please evaluate the offering onsite prior to sale day. We will also post video of each lot on our website.

## COLOR

All animals are red unless otherwise indicated in the footnotes.

## INSURANCE

Mortality and Accident, Sickness and Disease Infertility Insurance will be available from Martin-Trudeau Insurance. Contact them at (605) 996-3106 with questions.

## FEEDING

Feeding arrangements are available on all lots and will be fed at a charge of \$3.50 per day. We will feed your purchases from sale day until you are ready to pick them up, or we will deliver them.

## GENETIC DEFECTS

Every animal in the Bieber Red Angus production sale is guaranteed negative for the recessive gene associated with Osteopetrosis(OS), Arthrogryposis Multiplex(AM) (Curly Calf Syndrome), Neuropathic Hydrocephalus (NH) and any other known genetic defects. With this guarantee, we provide our customers the opportunity to purchase their choice of cattle with very little risk. DNA samples have been collected on every animal in the sale with any known carrier in the first three generations and tested negative unless otherwise noted.

## GAIN TESTING

The spring born bulls were weaned in September of 2025 and yearling weights were taken in January of 2026.

## UPDATED SUPPLEMENT INFORMATION

Supplement sheets will be available on sale day and will include actual scrotal measurements, actual weights, and updated carcass EPDs. All yearling bulls will be ultrasounded and updated carcass EPD information will be available. Yearling adjusted scrotal size is printed in the catalog. These are adjusted by the Red Angus Association of America. We find actual scrotal measurements at sale time are typically one centimeter larger than the adjusted measurements.

# BIEBER IGENITY

We want to take this opportunity to introduce you to Bieber Igenity, a DNA evaluation from Neogen that will rank your herd on the same basis as data provided by Igenity on Bieber Red Angus bulls. This evaluation will allow you to have your animals tested and ranked against a large data base, and then in turn directly select bulls that can complement your herd. This approach offers a science-based method to directly compare and contrast DNA markers within the bovine population.

We aim to produce bulls that provide the greatest return per dollar invested by staying focused on profit-oriented genetics that reduce management and labor inputs and increase sustainability. This program contributes to that goal by making our bulls and your cowherd speak the same DNA language. Our bulls have been tested on this same platform, giving you the opportunity to make better choices on what bulls will drive your operation in the right direction. We are excited to partner with Neogen on Bieber Igenity, the industry's first commercial cattle, multi-breed genomic selection process that is globally accepted.

Sample collectors and tests can be purchased from Bieber Red Angus at the following prices.

- Blood card: \$1.25
- Tissue Sample Unit (TSU): \$2.70
- DNA tests: \$30.00 per test

For an additional \$4.00, BVD PI testing can be done on TSU samples only. Sire parentage can be determined if Neogen has the sire on file. There is a 4 to 5 week turnaround for testing results. With this program, you will receive a \$10.00 credit per test towards a bull purchase at Bieber Red Angus.

## HOW TO IMPLEMENT BIEBER IGENITY

Step 1: Choose 30-50 females in your herd to test in the program. This number allows you to identify the genetic trends in your herd.

Step 2: Order blood cards or a TSU. This can be done directly through Bieber Red Angus or Neogen. Tests will cost \$30.00 per test when ordered through Bieber Red Angus, with a \$10.00 credit per test towards a bull purchase at Bieber Red Angus. Credit must be used within two years of submitting your Bieber Igenity order. Credit is valid for bulls ONLY and can equal only 20% of your total bull purchase.

For example

Spend: \$5,000	Use: \$1,000 Credit
Spend \$10,000	Use: \$2,000 Credit

Step 3: Collect DNA samples

Step 4: Fill out order form from Bieber Red Angus.

Step 5: Send completed order form, check made out to Bieber Red Angus, and your samples to:

Bieber Red Angus  
ATTN: Sample Submission  
11450 353rd Ave  
Leola, SD 57456

After these steps are completed, we will send your samples to Neogen for testing with a turnaround time of 4 to 5 weeks.

## YEARLING BULLS

It is our belief that the bulls in this offering can help improve your bottom line. We have focused on creating bulls that will help the industry in all areas of beef cattle production - from calving ease to growth and end product merit. We believe this should come in a strong maternal package with the convenience traits that make your cows easier to manage.

Every year we talk about this being the best set of bulls we've ever raised. While it sounds like a broken record, if a breeder is committed to producing the best and moving their program forward, that should absolutely be the case! We feel that our experience, mainly our learned knowledge of breeding and the industry, pushes us ahead every year. This offering is deep and gives cattlemen more opportunity to get it right by selection at Bieber Red Angus.

## LOT 1 BIEBER CHECKMATE N122

Lot 1 is a high-end herd bull prospect that combines real-world performance with breed-leading carcass value. He ranked 5th of 54 in his contemporary group for yearling performance—power you can measure. From a genetic standpoint, he stacks growth and carcass into one complete profile, ranking top 1% for WW, YW, and Marbling, and top 2% for GM, with added Carcass Weight (Top 7%) and REA (Top 10%) to drive grid value. He is sired by Checkmate K126 and out of a Dynasty H524 daughter, blending proven Bieber maternal strength with the Checkmate carcass and performance engine. His granddam sold to Cooksley Ranch in our 2024 Fall Sale. His dam had big shoes to fill and she answered in a big way with Lot 1.

## LOT 2 BIEBER CHECKMATE N324

Lot 2 is a big-time performance prospect that delivers measurable payweight. He posted a 730 AWW with a 118 ratio and a 1307 AYW with a 121 ratio, which is the kind of real-world growth that makes a difference when it's time to sell calves. He also boasts added red meat yield, ranking top 1% for WW and YW, top 6% for ADG, and top 3% for REA. He brings useful cowherd value while maintaining a workable calving profile with his maternal traits. His pedigree blends proven Bieber carcass/performance genetics with maternal function and longevity.

## Lot 3

Lot 3 is the kind that brings payweight. He ranked 2nd of 98 at weaning and 4th of 95 at yearling in his contemporary group with performance that shows up on the ticket and on the truck. Genetically, he's built to press the gas pedal on growth and carcass. Lot 3 ranks top 1% for WW, YW, and ADG, and adds true end-product punch with his carcass traits. He also lands top 4% for GridMaster and 6% for ProS, stacking pounds and grid value into one package. His pedigree blends performance-driven genetics with a solid Bieber maternal base. His calving ease data indicates he's best suited for mature cows where you want to add pounds and carcass value in a hurry.

## Lot 4

Lot 4 is a powerful Dynasty son that's engineered to add pounds and elevate carcass value. He combines breed-leading growth with a true grid profile - exactly the kind of bull that can move the needle on both the payweight side and the rail. His data stacks elite economic value with standout performance and carcass merit, ranking in the top 5% for several traits across the board. He's backed by a deep, practical pedigree sired by Bieber Dynasty H524 and a Bieber Spartacus A193 daughter.

# LOT 5

Lot 5 is a hard-charging performance bull that rose to the top. He posts a 1310 adj. yearling weight with a 122 ratio, ranking 1st of 95 in his contemporary group. The kind of measurable performance that separates payweight herd bulls from the pack. Genetically, Lot 5 is built to stack pounds and keep them coming, landing top 1% for WW and YW, and top 7% for ADG. He adds extra value on the carcass side with CW in the top 22% and REA in the top 17%. This is the first son of NIO American Freedom 1005 and backed by the dependable Tilly cow family. He is positioned well for mature cows where you want to add pounds and performance.

# LOT 6

Lot 6 is a Dividend K247 son that brings a hard-to-find combination of growth and true red-meat yield. He's loaded with carcass credentials, highlighted by a top 1% REA. On the grid side, N655 adds premium-driving carcass value with his marbling and CW EPDs, making him a practical option for programs that want cattle that perform and hang up right. Lot 6 stacks the prepotent Dividend line with a Conquest-influenced maternal base, built for function, productivity, and long-term use.

## LOT 7 BIEBER BWF JUMPSTART N737

Lot 7 is the kind that checks a lot of boxes for commercial profit. Calving ease you can trust, paired with breed leading growth and a carcass profile that keeps options open from sale barn to the grid. His calving ease is something to look at with CED in the top 7% and BW in the top 15%. He also backs it up with WW in the top 4% and YW in the top 2% to add pounds where they pay. On the carcass side, this lot brings a practical blend of calving ease, performance, and end-product merit. He is a Jumpstart J137 son, giving this lot flexibility for a wide range of cow types.

# LOT 8

Lot 8 is a sleep easy calving ease bull that still brings the kind of performance and maternal strength commercial cattlemen get paid for. Lot 8 ranks top 8% for CED and top 1% for BW, making him a great option when you want to start calves right and keep them coming unassisted. He doesn't give up growth or maternal to get there, so he's the kind that can make daughters you'll want to keep. He's out of Bieber Primrose 139H, a Stockmarket E119 daughter who produced Bieber Paycheck K102.

# LOT 9

Payweight, punch and added ribeye. Lot 9 is a high-growth Jumpstart son that's built to push the scale down and add muscle. He posted a 730 adj. WW 119 ratio and backed it up with a 1334 adj. YW 119 ratio. On paper, he's a true performance driver. He also brings a strong maternal shot, giving you flexibility whether you're selling calves or keeping replacements. He's line bred Bieber CL Energize F121, stacking proven Bieber performance and cow function behind a bull designed to add pounds and muscle.

# Lot 10

Lot 10 is a rugged, growth-and-yield oriented Jumpstart son, built to add pounds. He offers a solid \*\* calving ease with BW of -3.0 while still pushing performance with WW of 75 and YW of 121, both in the top 22%. Where he really separates is carcass: REA in the top 10%, and CW in the top 11% make him a legitimate combination for producers who want cattle that grow and hang up with more muscle.

# Lot 11

Lot 11 has high octane growth that's built to add pounds. He ranks in top 1% for WW and YW, and pairs it with a great carcass package. From a profitability standpoint, this bull stacks index strength with ProS in the top 3%. He's backed by proven, relevant genetics with NIO American Freedom 1005 on the top side, and a Stockman E116 sired dam from the famed Primrose cowline. His maternal brother sold last year to Anthony Ranches and is now making top genetics for that program in OK.

Lot 17 is a high value Exactly 1144J son that's geared for grid premiums and long-term usefulness. He brings an elite carcass profile headlined by his GM and Marb EPDs, giving you the kind of end-product strength that adds profit. His carcass data suggests you've got a bull built to improve both value and cutability.

# Lot 18

Lot 18 is an impressive Checkmate K126 son out of the Sierra cowline. He brings a combination of three star calving ease with high growth numbers – truly the best of all the worlds. Once you stack in his exciting carcass data, you can see how he is easily at the top of the breed in multiple indexes. We've been very happy with the Checkmate progeny in our herd just as we were with the bulls out of his sire – Paycheck 0728. It's an excellent line that gives you true functionality and stellar data across the board.

# Lot 19

Lot 19 is a Seismic son with a profit-focused profile built around pounds and long-term cow-herd value. He brings elite performance numbers for YW, WW, and ADG. This bull is a true payweight package designed to push calves from weaning through yearling and adds maternal strength and quality where it counts. He gives you growth plus replacement-female upside and added grid potential. His indexes back up the complete profile and he stacks proven, relevant genetics in his pedigree.

# Lot 20

Lot 20 is a big-spread Jumpstart son that posted a 674 adjusted WW with a 110 ratio and followed it with a 1283 adjusted YW with a 114 ratio. He shows a performance trend that stays strong throughout. On the data, he brings elite growth and useful cow-herd value, a combination that can be hard to find for most cattlemen. On top of that, he offers extra carcass muscle and a practical blend of pounds and red-meat yield which really rounds out a stellar set of data cross the board.

# Lot 21

This high-value, profit driven Checkmate son blends curve-bending calving ease with a powerful set of indexes and carcass merit. Lot 21 ranks Top 1% for ProS and Top 1% for HB, giving him true all-around economic value built for both feeder and maternal profitability. He stays balanced where it matters, with sleep-easy calving, while still offering growth. He's a practical bull that keeps options open from the sale barn to the rail.

EPD Data Generated 1/22/2026

Lot 24 brings a calving profile for heifers while still pushing performance. What really sets him apart is his data on the cow and carcass side. His indexes are built for profit, a strong option for programs that want replacement heifer value without giving up end-product merit. His sire is offered by ABS Global and we have seen a lot of progeny this year and expect great things.

## REFERENCE SIRES

This group of sires displays the foundation of our program and provides the elite Red Angus genetics that our cattle are famous for. We list the sires that have the most progeny in the sale and have the largest representation of genetics.

LC

# REFERENCE SIRES

## BIEBER JUMPSTART J137

Bieber Jumpstart J137 is becoming one of the most influential Red Angus sires of the past decade, first gaining national attention as the single most sought-after Red Angus bull of the 2022 sale season, where he sold for \$185,000 to Select Sires and partners. He pairs elite, multi-trait data with a powerful phenotype, offering a combination that very few sires in the breed can match. He ranks among the top tier for growth, while maintaining solid calving ease and structural integrity. His data profile supports added pounds at weaning and yearling, improved feedlot performance, and long-term cow herd value. Phenotypically, he stands out for his muscle expression, base width, depth of rib, and overall structural correctness, traits that consistently transmit to his progeny. With 1,700+ registered progeny and growing, Jumpstart has proven his ability to deliver predictable, repeatable improvement across nearly every economically relevant trait. As a top semen-selling sire at Select Sires, he is being used extensively across the industry in purebred, commercial, and crossbreeding programs, validating both his data and real-world performance. Jumpstart is no longer just a high-selling bull, he is a proven, high-impact sire backed by data, demand, and results.

## NIO AMERICAN FREEDOM 1005

Freedom 1005 is a herd improving sire that blends elite performance with maternal strength. Backed by one of Niobrara's most profitable cow families, he consistently pushes forward on all fronts: growth, carcass merit, foot quality and calving ease. American Freedom's WW and YW data indicate progeny built for profitability. He has exceptional IMF performance with an IMF scanned at a 162 ratio and the second-highest REA ratio at 123 in his group, showing his prepotency will bring added carcass value. He is built to work in commercial and seedstock operations for years to come. Freedom 1005 carries a complete set of strong performance, maternal and carcass attributes, putting him in the elite tier of Red Angus genetics that drive profit on both the ranch and in the feedlot. This is the kind of bull that raises the bar, adding pounds, value and longevity to your herd.

# REFERENCE SIRES

## BIEBER DYNASTY H524

Bieber Dynasty H524 has established himself as a proven, multi-trait herd sire, delivering consistent results over several calf crops. Since selling through our 2021 Sale, Dynasty has sired outstanding progeny, and this year's group continues that trend with added depth, balance, and usability. From a data standpoint, Dynasty excels where long-term profitability is built. He carries a strong ProS, reflecting elite all-around economic value with emphasis on both feeder and carcass performance. His Milk EPD supports functional, productive daughters that maintain condition and raise calves efficiently, while his Marbling EPD traces to one of the highest-marbling cow families in the Red Angus breed, adding end-product value without sacrificing growth or structure. His industry relevance was further validated this spring when he was leased by GENEX! We hope to secure adequate semen inventory to continue utilizing his genetics for years to come.

## BIEBER CHECKMATE K126

Bieber Checkmate is a performance and GridMaster leading sire that combines elite carcass merit with practical, real-world usability. Checkmate excels for Marbling, REA, and Carcass Weight while maintaining a moderate frame, added muscle shape, depth of rib, and excellent foot quality. From a data standpoint, Checkmate ranks near the top of the Red Angus breed for WW, YW, Marbling, REA, and ProS. He recorded individual scan ratios of 126 for IMF and 108 for REA, confirming his prepotency for end-product value. Despite his power and carcass strength, Checkmate maintains calving ease, excelling across all three birth traits BW, CED, and CEM. Sired by LARR Paycheck, an outcross to many Red Angus pedigrees, he offers added mating flexibility while stacking performance, carcass value, and long-term profitability into the next generation. Semen is available through Select Sires.

# REFERENCE SIRES

## BIEBER PAYCHECK K102

Bieber Paycheck K102 is a power sire that blends elite growth performance with strong maternal traits and carcass value. As the high-selling bull in our 2023 sale, Paycheck has become recognized for his ability to drive pounds and profitability across diverse breeding programs. Phenotypically, Paycheck is moderate framed and his balanced phenotype and functional design make him a practical choice for both commercial and seedstock operations. He ranks among the breed elite with an exceptional ProS in the top 3% and a GridMaster (GM) in the top 7%. He carries powerful growth genetics with WW and YW in the top 4%, supporting added pounds at weaning and yearling. Calving ease and maternal performance remain solid, and his carcass figures further enhance grid-driven value. Semen is available through Alta Genetics.

## PIE ASSET 1276

PIE Asset 1276 was selected from the Pieper's program to strengthen maternal function and durability in our breeding programs. He traces to the famed PIE Ruby 520 cow family, one of the breed's most influential female lines and the dam of Quarterback. Phenotypically, he offers great structure, moderate frame, and functional udder quality that consistently expresses in his daughters. As a son of the Resource line, he is renowned for producing productive, efficient females.

## LSF SRR EXACTLY 1144J

Exactly stood out early as a yearling at the 2022 Ludvigson Sale, where he had herd bull presence written all over him. He combines a powerful, balanced phenotype with the kind of structure and design that fits long-term use. He offers outstanding performance and carcass merit, reinforcing his ability to drive added pounds and end-product value in many breeding programs. On the maternal side, his sire has produced daughters that are consistently reliable and functional.

# REFERENCE SIRES

## ANDRAS DISTINCT K052

Distinct is a sire that combines exceptional growth potential with strong maternal and carcass traits. His EPD profile places him well above breed averages, reflecting his ability to drive both feeder performance and grid value. Phenotypically, Distinct is well-balanced with structural integrity. He provides both performance punch and flexible mating options to enhance long-term herd profitability.

## LARR PAYCHECK 0728

Paycheck is a powerful, high-impact sire we identified as a standout individual in the Lundgren Angus Sale offering. He immediately separated himself with exceptional muscle expression and elite marbling performance in a practical, moderate design. Paycheck ranks in the top 1% of the breed for both WW and YW. His progeny consistently exhibit muscle shape, depth, and the frame flexibility to curb mature size when desired, making him an effective complement to a wide range of cows. His influence is further validated as the sire of Bieber Paycheck K102 and Bieber Checkmate K126, two sires that continue to carry his combination of growth, carcass value, and structural integrity forward.

This lot offers excellent growth to any operation.

**1. Lot Number** - This is the lot number of the animal. Cattle will have a white tag that will correspond to that number. Generally cattle will sell in lot number order.

**2. Name** - This is the registered name of the animal. Generally we name bulls after the sire and females after the dam.

**3. Born** - This is the birth date of the animal.

**4. Reg** - This is the Registration number of the animal. All Red Angus animals can be looked up on the Red Angus website by going to the animal search page and using this registration number.

**5. Breed** - This area has the breed composition and category as determined by the Red Angus Association of America. Breed Codes are:

- AR = Red Angus
- SM = Simmental
- XX = Unknown

The unknown cattle are largely cattle we weren't able to prove parentage on in the Durham herd. The unknown breed is either Simmental or Red Angus in the Durham foundation cattle.

**6. Category** - This is the category as defined by the Red Angus Association. Categories are:

- 1A = 100% Red Angus with no disqualifying features.
- 1B = 87% to 99.9% Red Angus with no disqualifying features.
- II = Equal to or greater than 87% up to and including 100% Angus blood content having one or more disqualifying features. Disqualifying Features include scurs or horns, ineligible white, black pigment, progeny of multiple sire groups, and missing birth date, or weaning weight and date.
- III = Less than 87% Angus blood content.

**7. Sire** - Sire of the animal.

**8. Paternal Grand Sire** - Sire of the Sire.

**9. Paternal Grand Dam** - Dam of the Sire.

**10. Dam** - Dam of the animal.

**11. Maternal Grand Sire** - Sire of the Dam.

**12. Maternal Grand Dam** - Dam of the Dam.

**13. MPPA** - Most Probable Producing Ability. An estimate of a cow's future productivity for a trait (such as progeny weaning weight ratio) based on her past productivity. For example, a cow's MPPA for weaning ratio is calculated from the cow's average progeny weaning ratio, the number of her progeny with weaning record, and the repeatability of weaning weight.

**14. AOD** - Age of Dam at the time of weaning.

**15. ADG** - Average Daily Gain. Measurement of daily body weight change over a specified period of time of an animal on a feed test.

**16. ADG Ratio** - Average Daily Gain Ratio. The ratio of the animal within its contemporary group. ET and Twins will be marked with a TW and ET. These animals have no contemporary group.

**17. WDA** - Weight Per Day of Age. Weight of an individual divided by days of age.

**18. WDA Ratio** - Weight Per Day of Age Ratio. Weight of an individual divided by days of age. ET and Twins will be marked with a TW and ET. These animals have no contemporary group.

**19. AScr** - Adjusted Scrotal Circumference. A measure of testes size obtained by measuring the distance around the testicles in the scrotum with a circular tape. Related to semen-producing capacity and is adjusted to Yearling age. Actual Scrotal Measurement are provided on a supplement sheet at the sale.

**20. CE** - Calving Ease Score. This is our recommendation for CE based upon the data and the pedigree.

\*\*\* = Use on heifers; expect less calving difficulty.  
\*\* = Use on growthy heifers and cows. Expect moderate calving difficulty on heifers and very little on cows.  
\* = Use on cows; expect calving difficulty on heifers and some to very little on cows.

**21. Growth Sc.** - Growth Score. This is our recommendation for growth based upon the data and the pedigree.

- G6 = Maximum growth rating.
- G5 = High growth rating.
- G4 = Moderately high growth rating.
- G3 = Average growth rating.
- G2 = Below average growth rating.
- G1 = Low growth rating.

**22. EPD Data Generated** - The date this EPD data was pulled from the Red Angus Association website.

**23. EPD** - Expected Progeny Difference. The difference in expected performance of future progeny of an individual, compared with expected performance of future progeny of an individual of average genetic merit in the base time frame for the genetic evaluation.

EPDs are estimated from phenotypic merit of an individual and all of its relatives and are estimates of one-half the breeding values. EPDs are generally reported in units of measurement for the trait (e.g. lb., in., etc.).

**acc** - Accuracy. A measure of the reliability of an EPD. Accuracy values are reported as decimal numbers between zero and one. Values closer to one indicate larger amounts of available information and greater certainty that a bull's EPDs will not change significantly as more progeny information becomes available. Bieber Red Angus reports the accuracy values for sires since they have high accuracies. EPDs are a more reliable estimate of performance than weaning, ratios or other measurements.

**24. Rank** - This is the percentage rank of the EPD within the type of animal. Rank groups include Proven and Opportunity Sires, Active Dams, and Non Parent under Two Years of Age.

**25. Wts** - Weight. The weight for that trait in that column adjusted to a constant days of age by Red Angus Association and Beef Improvement standards.

**26. Ratio** - The ratio for that trait in that column within its contemporary group. ET and Twins will be marked with a

TW and ET and have no contemporary group.

**27. CED** - Calving Ease Direct. Predicts the probability of calves being born unassisted out of two-year-old heifers. Producers want live calves born unassisted. Selecting on actual birth weight is flawed; it is influenced by non-genetic factors such as nutrition and weather (ambient temperature). While BW EPD removes these non-genetic factors, Red Angus CED EPD is the best predictor of calving ease. The CED EPD includes variation in BW plus other influential genetic factors such as gestation length, calf shape, etc.

**28. Birth Weight EPD** - Predicts the difference, in pounds, for birth weight, and is also used in the calculation of the Calving Ease Direct (CED) EPD.

**29. BW** - Birth Weight. The actual weight in pounds at birth.

**30. Weaning Weight EPD** - Predicts the difference, in pounds, for weaning weight (adjusted to age of dam and a standard 205 days of age). This is an indicator of growth from birth to weaning.

**31. WW** - Weaning Weight. The 205 adjusted weight. This is an indicator of growth up to weaning.

**32. Yearling Weight EPD** - Predicts the expected difference, in pounds, for yearling weight (adjusted to a standard 365 days of age). This is an indicator of growth from birth to yearling.

**33. YW** - Yearling Weight. The 365 adjusted weight. This is a measure of growth from birth to yearling.

**34. Milk EPD** - Predicts the difference in maternal production of an individual animal's daughters as expressed by the weaning weight of their calves.

**35. ME EPD** - Maintenance Energy. Predicts the difference in heifers' maintenance energy requirements and is expressed in Mcal/Month. Recognizing that 70% of cowherd feed costs are burned up in maintaining weight and condition, Red Angus' ME EPD allows for the selection of bulls whose daughters will require less feed; thus, reducing cowherd expenses. Includes selection pressure for ME EPD to ensure feed costs don't get out of line when selection is made for greater performance and production. At Bieber Red Angus we collect a cow weight at weaning time to ensure greater accuracy of this EPD.

**36. HPG EPD** - Heifer Pregnancy. Predicts the probability of heifers conceiving to calve at two years of age. Many breeds offer genetic predictions of yearling bull scrotal circumference as an indicator of age of puberty. While puberty is a prerequisite, many factors influence pregnancy rate. Red Angus' HPG EPD offers a tool which selects for what is economically relevant to ranchers - pregnant heifers. At Bieber Red Angus we submit all heifer breeding data to ensure the accuracy of this EPD.

**37. CEM EPD** - Calving Ease Maternal. Predicts the probability of a given animal's daughters calving unassisted at two years of age. Replacement heifers should be able to calve on their own. Red Angus' CEM EPD offers the industry's most reliable prediction to address that concern.

It includes not only the predisposition for a female to calve unassisted, but also her contribution to her calf's traits that make it more likely to be born unassisted.

**38. STAY EPD** - Stayability. Predicts the probability of a bull's daughters remaining productive until at least six years of age. Why six? That's how long it takes a female to breakeven given all the expenses of development.

**39. MARB EPD** - Marbling. Predicts differences for carcass marbling score as expressed in marbling score units. Higher marbling scores are positively correlated with higher carcass quality grades.

**40. REA EPD** - Rib Eye Area. Predicts differences of carcass Rib Eye Area between the 12th and 13th rib. Increased Rib Eye Area has a beneficial effect on Yield Grade which also includes Carcass Weight and Fat Thickness.

**41. FAT EPD** - 12th Rib Fat Thickness. Predicts differences for carcass fat depth over the 12th rib, as expressed in inches. Increases in fat thickness have a detrimental effect on Yield Grade. Fat thickness measured in young seedstock may be an indicator of fleshing ability.

**42. HerdBuilder Index** - As the name indicates, implementation of the HerdBuilder Index will assist producers in building profitable herds. The HerdBuilder Index is built using the following production scenario:

- Red Angus bulls mated to cows and heifers (resulting progeny ¾ Red Angus, ¼ Simmental).
- Replacement heifers retained from within the herd.
- All remaining progeny sold on a quality-based carcass grid.

**43. GridMaster Index** - While Red Angus has traditionally been known as a superior maternal breed, those who have retained ownership in Red Angus calves know of their potential to excel in the feedyard and ultimately hang a premium carcass. The GridMaster Index is built using the following production scenario:

- Red Angus bulls mated to cows (resulting progeny ¾ Red Angus, ¼ Simmental)
- All progeny sold on a quality-based carcass grid

**44. ProS Index** - Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include calving ease, growth, HPG, STAY, Mature Weight, Dry Matter Intake and carcass traits. The resulting index is expressed in dollars per head born (Index/High Value).

**45. Top Dollar** - A third party evaluation on growth and carcass traits of an animal. Lots with this logo rank in the top 25% of the breed for growth and carcass EPD traits.

**46. DNA** - The DNA test submitted on this animal for parentage and genomically enhanced EPDs.

**47. Footnote** - This is information we would like to point out about the lot. It may contain breeding information on bred cattle.

*Verified*

# TOP DOLLAR ANGUS

*Premiums*

**JEFF FORSTING**, Columbia, South Dakota, sold 103 Top Dollar Angus-qualified steers and heifers at Hub City Livestock Auction, Aberdeen, South Dakota. Their sponsorship was provided by Hart Angus Farms, South Dakota.

Forsting's cattle brought a healthy \$21.14 per head above market average for their weight, sex and group size. That's a good return on a \$4 investment.

**HESTER FARMS**, Keeline, Wyoming, marketed 200 steers and 106 head of heifers at Torrington Livestock Auction. Their sponsorship was provided by Ken Haas Angus.

Hester's 200 steers achieved a \$44.42 premium per head above the average for the day while the 106 heifers brought \$24.75 per head over average. A commendable achievement at the reputable Torrington Livestock Auction.

Top Dollar Angus steers and heifers at the 2022 Superior Livestock Bellringer sale saw an average \$11.35 per head above the average.

Top Dollar Angus helped customers' genetic investments in the Bieber Red Angus, Schriefer Red Angus and Huber EY Red Angus programs stand out! Customers were in the Bellringer sale.

**MARK MORLOCK**, Eureka, South Dakota, sold 56 head of Top Dollar Angus-qualified steers and 50 head of Top Dollar Angus heifers at Hub City Livestock Auction. Hart Angus sponsored the program.

Mark's 50 head of Top Dollar Angus-qualified steers returned an additional \$41.48 per head above market average for their weight and sex with the heifer mates beating the market average by a \$38.35 per head at the very respectable Hub City Livestock Auction average.

**ALLEN OLSON**, Box Elder, South Dakota, marketed 81 head of Top Dollar Angus-qualified steers at Philip Livestock Auction, Philip, South Dakota. The sponsorship was provided by Lone Tree Red Angus.

At the end of day, Olson's Top Dollar Angus-qualified steers averaged a healthy \$63.95 per head above the market average for their weight, sex and group size.

**Top Dollar Angus has the necessary resources to provide third-party genetic verification of high-quality Angus and Red Angus-influenced feeder calves and females. Combining genetic verification with our extensive network of seedstock partners and feedyards allows Top Dollar Angus to deliver the unique ability of marketing assistance to our customers and truly connect people to people and people to profit.**

# LEGAL TERMS AND CONDITIONS

The Red Angus Association Terms and Conditions will apply if the terms and conditions printed here are not applicable.

**BIDDING DISPUTES:** The auctioneer in charge will settle any disputes as to bids. His decision on such matters shall be final.

**TERMS:** The terms of the sale are cash; the right of property shall not pass until after settlement is made. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the ranch.

**RETAINED INTEREST:** We are retaining 1/2 interest in all bulls in the sale. We are selling the remaining 1/2 interest, full possession, and full salvage value on these bulls. This option gives Bieber Red Angus Ranch the option to collect, use and market semen from the bull, and does not restrict the purchaser from doing the same. This collection, unless agreed otherwise, would be done at the expense of Bieber Red Angus Ranch, at the buyer's convenience. Also at the time of purchase, the highest bidder on a retained interest bull may elect to purchase exclusive semen rights for 100% of the purchase price in addition to the purchased price on retained bulls. If a buyer elects to purchase exclusive semen rights, Bieber Red Angus Ranch's interest then becomes in herd use only. Bieber Red Angus Ranch retains all rights to use the bull within their herd.

**SEMEN RIGHTS:** Buyers receive semen rights proportional to the interest purchased. If you purchase a 1/2 interest, then you are entitled to 1/2 of the semen collections at cost, provided that you indicate you want semen prior to collection. We intend to collect some of the bulls in the sale and sample them in our herd. We will cooperate with the buyer in collection of the bull. We prefer to collect most bulls after the first season of use, and we will contact the buyer when we intend to collect the bull at a time convenient for the buyer.

**PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as sold. Animals will be fed, watered and cared for at the purchaser's risk for a reasonable time.

**CERTIFICATE OF REGISTRY:** A certificate of registry and transfer will be furnished for each animal sold as a registered animal, after settlement has been made.

**HEALTH:** All cattle will have official health certificates and will sell guaranteed export to Canada. Canadian health certificates will be charged at cost on animals selling under \$4000.

**ANNOUNCEMENTS:** Changes of information contained in this catalog relating to the animals offered for the sale will be announced from the auction block and such announcements shall take precedence. Errors discovered in the catalog will be corrected by announcements at sale time, and such corrections will take precedence over the printed matter in this catalog.

**BREEDER'S GUARANTEE:** 1. All animals are guaranteed breeders, with the exception of: a) calves under twelve months of age; b) animals shown by Purchaser after sale (in cases of animals shown after purchase, the breeding guarantee, if any, shall be such as agreed upon between Seller and Buyer) c) any open heifer that has been flushed for embryo transfer; or d) gross negligence or willful misconduct on the part of the Purchaser. 2. Bulls are guaranteed breeders if not allowed to run with the herd until at least 14 months of age. Any bull which either: a) settles 1/3 or more of the healthy cows he serves; b) is the sire of 20 or more animals; or c) settles cows by natural service and passes a fertility test made by a competent veterinarian during any 6 month period of trial (provided for in paragraph 2 of the section of these sale terms and conditions entitled "Options and Privileges of Return or Adjustment") shall be considered a breeder.

Any guarantee with respect to the ability to freeze semen shall be by separate agreement between Buyer and Seller.

All guarantees are limited to the amount of the purchase price.

Open females have not been served and are so guaranteed.

**IDENTIFICATION:** Each animal carries an EID tag for identification. That EID corresponds with the ID of the animal and is recorded with the Red Angus Association. Tag numbers on the cattle correspond with lot numbers in this catalog. Purchaser agrees to use full name of animal in advertising and on stall cards at shows.

## OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT:

1. All claims for adjustment or refund must be made in writing either within six months of the sale date or no later than six months after the animal reaches 18 months of age, with the exception of claims involving defects or parentage.

2. In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm of the Seller if in good condition and complying with the health requirements of the Seller's state. The Seller shall be entitled to six months' trial following the return of the animal in which to prove the animal is a breeder. The Seller shall, at the option of the Buyer, replace the animal with another of equal value or grant the Buyer a credit for use on any products marketed by the Seller. Such credit of the full purchase price shall in any case be deemed full satisfaction and settlement. Any expense incurred for transporting an animal claimed to be a non-breeder shall be the responsibility of the Purchaser, except that the Seller shall be responsible for the transportation costs in excess of the distance between the Purchaser's farm and the location where the sale took place. If the Seller proves the animal is a breeder, it shall be the obligation of the Purchaser to take delivery of the animal and pay all expense incurred for transportation.

3. If a female sold as "safe in calf" proves not to be in calf, the Purchaser may receive service from the bull previously used, if available, or if the bull is not available, the Seller shall be obligated to make a satisfactory adjustment on the purchase price upon return of the animal to the farm of the Seller. Any adjustment provided for herein shall absolve the Seller from further liability, except in case such female proves to be a non-breeder. If a female represented as "safe in calf" at time of sale to a certain bull proves to have been bred to a different bull, the Seller shall be obligated to take a satisfactory adjustment on the purchase price upon return of the animal to the farm of the Seller (adjustments shall not be considered to a breeding fee or an allocation of the purchase price to any unborn calf). Any expenses incurred for transportation shall be the responsibility of the Purchaser, except that the Seller shall be responsible for the transportation costs in excess to the distance between the Purchaser's farm and the location where the sale took place.

4. If a female sold as "served" proves not to be in calf, or if a female sold as "pasture-bred" proves not to be in calf, the Seller only guarantees such female to the breeder.

5. If a female sold as "open" proves to be with calf, the Purchaser may return the animal to the farm of the Seller prior to calving for a credit of the full purchase price or for another animal of equal value, whichever is acceptable to the Purchaser. It shall be the obligation of the Seller to bear any expense incurred for transportation.

**LIABILITY:** Neither owners, sale managers, clerks nor anyone connected with the sale assumes responsibility, legal or otherwise, for damages of any kind.

**CONTRACT:** The above terms and conditions shall constitute a contract between the buyer and seller of each animal sold.

**IMPLIED WARRANTY:** Except for those stated in the terms and conditions, there are no warranties, either expressed or implied, as to merchantability or fitness for a particular purpose with respect to the cattle being sold in this auction. The warranties set forth in terms and conditions are in lieu of all other warranties, either expressed or implied, and the remedies proved therein shall be the sole and exclusive remedy of the buyer, or any part claiming through buyer, for any breach of warranty or guarantee therein provided and all other obligations or liabilities.

WE LOOK FORWARD TO SEEING YOU THIS FALL FOR OUR...
